EAST COAST OF INDIA.

BAY OF BENGAL.

MADRAS COAST.

THE following information has been received from Commander Carpenter, R. N., in charge of the India Marine Survey :—

Rockingham Patches.—Lying close off the Coast, 25 miles South of Madras, consist of a few rocky heads inside the 10-fathom line. The shoalest water found on them was 11 feet and the outermost danger, $3\frac{1}{2}$ fathoms rock, lies on the following bearings, at one-and-a-quarter miles off the shore :—

Red light tower	..	S. W. by S.,	distant	$5\frac{1}{2}$ miles.
Tripalur Hill	...	N. W. by W.	"	$4\frac{1}{2}$ "
Extreme of Covelam point	..	N. $\frac{1}{2}$ E.	"	6 "
Finger Peak	...	S. W. by W. $\frac{1}{2}$ W.	"	$11\frac{1}{2}$ "

Vessels should not get into less than 12 fathoms in passing this danger. Tripalur Hill is low, and has a temple on it that looks like a bungalow.

Finger Peak, which is not conspicuous when bearing northward of West, is the southernmost part of all the high land visible.

The 29th April 1887.—Baboo Nand Lal Kundu, First Munsif of Chhandpore, in the district of Tipperah, is allowed leave for one month and 15 days, under section 73, rule 1, chapter V of the Civil Leave Code, with effect from the 12th proximo, or from the date on which he may be relieved.

BRAHMA MOHAN MALLIK,
Inspector of Schools, Western Circle.

HUGLI, the 30th April 1887.

Government Engineering College, Seebpore.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 25th May 1887. The Session begins on Monday the 6th June 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F.A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June 1887. They must send in their applications before 25th May 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight.

Further particulars will be supplied on application to the Principal.

S. F. DOWNING,
Principal, Govt. Engineering College.

SEEBPORE, the 25th April 1887.

Yearly Examination for Fourth Grade Accountants.

The yearly examination of candidates for the fourth grade of Accountant, Public Works Department, will be held at the Government Engineering College, Seebpore, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Read rules below—

SUBJECTS.		Full marks.	Minimum passing marks.
Writing (neatness, clearness and rapidity)	...	100	50
Dictation (spelling, punctuation, &c.)	...	100	50
Arithmetic (whole course)	...	240	160
Mensuration (a) (whole book)	...	60	30
Book-keeping (b) (mercantile)	...	100	50
		<hr/> 600 <hr/>	<hr/> 400 <hr/>

Minimum required
in all papers col-
lectively.

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burmah only. Candidates will not be examined in any of the Calcutta offices.

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10, and the following certificates. Certificates may be submitted in original or true copies, attested by an officer of the Engineer or Accounts Branch, but no certificate will be returned:—

- (1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).
- (2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ).
- (3) Certificate that the application is in candidate's handwriting. It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons, who are already employed in the department.

PUBLIC WORKS DEPARTMENT.—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 146.

The 29th April 1887.

THE annual accounts and reports of the Road Cess Committees of the districts of Hazaribagh, Lohardugga, Manbhoom, and Singhbhoom for the cess year 1885-86, together with the remarks thereon of the Commissioner of Chota Nagpore, are published for general information.

W. B. BESTIC,

Under-Secretary to the Government of Bengal.

P. W. Dept.

No. 93DR., dated Hazaribagh, the 31st December 1886.

From—COLONEL C. H. GARBETT, Chairman, District Road Cess Committee, Hazaribagh,

To—The Commissioner of the Chota Nagpore Division.

I HAVE the honour to submit herewith the annual accounts and report of the District Road Fund operations for the cess year ending 30th September 1886.

2. At the commencement of the year under report the *personnel* of the District Committee consisted of twenty-four members. This number was reduced to twenty-two, owing to the decease of two of the non-official members during the year. * * * A summary of the businesses transacted at the meetings is given below:—

(1)—Passing of annual accounts and report for the cess year 1884-85.

(2)—Consideration of feeder-roads to be constructed or improved in the district in connection with the Bengal-Nagpore Railway.

(3)—Discussion with regard to the suggestion of the Superintending Engineer made in his letter No. 422, dated 22nd March 1886, for the improvement of the road leading from Koobrie Nulla to Chattra.

(4)—Passing the budget estimates of receipts and expenditure for the cess year 1886-87, and determining the rate at which the cess is to be levied during that year.

(5)—Distribution of village road grants and other miscellaneous matters.

3. The accounts of the Committee were regularly audited and passed monthly by a Sub-Committee, consisting of the Vice-Chairman and two other members of the Committee.

4. *Branch Committee.*—There is only one Branch Committee in the district, viz, at Giridhi. The number of meetings held during the year was six against eight in the year preceding, and the average attendance of members was 4.66.

5. The current demand on account of cess on lands and mines for the year was Rs. 45,526, and the arrear demand from last year Rs. 1,946, making a gross demand of Rs. 47,512 for realization. Out of this sum, Rs. 50 having been collected in advance during the previous year, the actual collections of the year including arrear and current demands, amounted to Rs. 47,283, leaving a balance of Rs. 179 uncollected at its close. Besides the collections stated above, Rs. 76 was collected as advance for future years. Thus the result of collections will be seen to be highly satisfactory, as the balance at the end of the year was very small in comparison to that which remained at close of the year preceding, the percentage of collection on current demand being 104.02.

6. *Original works.*—The works executed during the year under this head were the parapet of the Lallabund bridge on the Hazaribagh and Chattra road, the earthwork on its approaches; the completion of earthwork on the Burhee and Gawan road, three-fourths of which were done up to the end of last year; the sinking of a well at Lepo, partially done in 1882-83, and a cart serai at Buggodur on the Grand Trunk road. The Branch Committee at Giridi have also constructed an inspection bungalow at Gawan, and some culverts on the sub-divisional village roads.

7. *Repairs.*—All the metalled and fair-weather roads, aggregating 352 miles, viz., 37 miles of metalled, 32 miles of gravelled, and 283 miles of kutcha roads, have been maintained in fair order, i.e., as well as they could be kept up with the limited funds at the disposal of the Committee.

8. *Village roads.*—No new village road was constructed during the year. The existing 32 village roads in the head-quarter's sub-division, aggregating 146 miles, were repaired at a cost of Rs. 3,500, and made practicable for sugar and cart traffic.

9. It is desirable that some of the steep gradients along district and village roads should be improved, and a few miles of the former metalled or gravelled every year as funds permit.

10. The works in the head-quarter's sub-division were, as usual, executed under the supervision of the District Engineer, and those in the Giridi sub-division under that of the Branch Committee, who also entrusted the District Engineer with the repairs of some of the roads under them.

11. *Trees.*—The trees planted out in previous years have been maintained. Eighty-five mahogany plants were transplanted on the roadside during the year, of which 20 perished after transplantation, and the rest are doing well.

12. *Nursery Garden.*—A quantity of *eucalyptic* seeds, received for experiment from the Director of Agriculture, was sown. They germinated partially, and about 400 plants have grown to the height of about 3 to 4 inches.

13. *Staging bungalows.*—There is only one staging bungalow in the district at Ramghur on the Ramghur and Gola road. The receipts from this bungalow was Rs. 87.4, and the cost of its maintenance Rs. 248-15-9 during the year.

14. All the works, excepting the maintenance of trees, were done by contractors. The Sub-divisional Officer of Giridi reports that the works done in his sub-division by the contractors were not very satisfactory. He also remarks that, as a rule, the members of the Branch Committee do not interest themselves much in the work, most of which devolves on himself as Chairman of the Committee.

15. *Establishment.*—The District Engineer, Mr. Gantzer, is a thoroughly efficient officer, takes interest in his work, and looks well after his roads. He gave entire satisfaction during the year under report. The staff under him also worked fairly well during the year.

JADU NATH MOOKERJEE,

Ex-Officio Member, for Vice-Chairman.

No. 125 DR., dated Ranchee, the 10th January 1887.

From—E. G. LILLINGSTON, Esq., Deputy Commissioner and Chairman, District Road Cess Committee, Lohardugga.

To—The Commissioner of the Chota Nagpur Division.

I HAVE the honour to submit the following report on the operations of the District Road Fund during the year ending 30th September 1886.

3. During the year under report there were ten meetings of the District Committee of which five were special and five ordinary; one ordinary meeting was adjourned for want of a quorum. The average attendance was 4 against 7 of the preceding year. It will be observed that the attendance of both official and non-official members of the District Committee during the year under report was unsatisfactory, for out of four official and five non-official members, one official and one non-official did not attend six consecutive meetings. The names of the non-official members who failed to attend six consecutive meetings has been struck off the list under section 115 of Act IX (B.C.) of 1880. No new members have yet been appointed in the places of those who have ceased to be members of the District Committee under section 115 of the Cess Act during this year, and the one previous to it.

The attendance of the members of the Branch Road Cess Committee of Palamow was also unsatisfactory.

4. A summary of the business transacted at the meetings of the District Committee is given below—

- (1). Preparation of the budget estimate for 1886-87.
- (2). Audit of annual accounts and consideration of the annual report for 1884-85.
- (3). Passing estimates of different works for 1885-86.
- (4). Consideration of Superintending Engineer's remarks after his inspection of district roads.
- (5). To frame rules for taking security deposit from the Overseers, Sub-Overseers and road sirkars employed under the Road Cess Committee.
- (6). To dispose of applications from the contractors, and other miscellaneous works.
- (7). To accept tenders submitted by the contractors for the repair work of the cess year 1885-86.

5. Babco Asutosh Gupta, Assistant Magistrate and Collector, having been transferred from the district, the office of the Vice-Chairman was held by G. W. Place, Esq., c.s., Joint Magistrate and Deputy Collector, from 10th September 1886 to the end of the cess year.

6. The accounts of the year were duly examined and audited by a Sub-Committee consisting of the Vice-Chairman and two other English-knowing members appointed under section 179 of the Cess Act, whose report shows that every item was found correct and that the cash-book balance agreed with that of the treasury.

7. The demand on account of cess on lands and mines during the year amounted to Rs. 51,155 against Rs. 51,179. The decrease of Rs. 24 is owing to the omission of the demand from the Suna P. Estate, which was remitted during the the last year under Board's No. 263A., dated 14th July 1885, from the demand of the year under report.

8. The total amount recoverable during the year under the head of cess on lands and mines, including arrears of last year, was Rs. 51,324. Out of this amount Rs. 51,253 was collected, the balance outstanding at close of the year being Rs. 71, of this Rs. 3 was remitted being irrecoverable. There is an increase in the amount of collection under other heads which is principally due to the collection of copying fees in cash.

9. The cess was levied at the maximum rate. There was no difficulty in collecting it at head-quarters. In the Palamow sub-division also the payments appear now to be more punctually made than before. The tenure-holders seem to be beginning to see that the recovery by the certificate procedure is speedy and certain, and that it is better to pay up punctually.

ORIGINAL WORKS.

10. *Original Works Head-quarter Sub-division.*—On the Ranchee-Lohardugga road one permanent masonry bridge of four spans of 25 feet each has been constructed during the year over the Pandi stream on the 4th mile.

11. In accordance with the recommendation of the Superintending Engineer, five inspection huts at the sites noted in the margin, have been built for the convenience of the road cess subordinates employed to inspect the works during the rains, at a total cost of Rs. 352 only.
- | | |
|--|--|
| (1) At Jamchua on the 12th mile, Ranchee-Terai road. | |
| (2) At Nagri on the 12th mile, Ranchee-Palma road. | |
| (3) At Kandara on the junction of Ranchee-Palkote and Khunti-Kandara road. | |
| (4) At Gambharia on the 12th mile, Sambalpur road. | |
| (5) At Bhandra on the 38th mile, Palma-Lohardugga road. | |

12. *Surveys.*—On the Ranchee and Bandgoan road the survey and level of the diversion line have been finished, but no provision could be made in the current year's budget estimate for the execution of the work for want of funds. Some portion of the Ranchee and Chandil feeder-road has been surveyed during the year under report.

13. *Plantation.*—Very little has been done in plantation work during the last year, only the plants which died have been renewed.

REPAIRS.

14. *Repairs Head-quarters Sub-division.*—For want of funds, maintenance works have

not been executed to the desired extent, and the roads noted in the margin, have only been kept passable during the year under report. The improvement of the Ranchee and Chandil road has been kept

in view. Five temporary wooden culverts have been replaced by culverts with dry rubble masonry abutments, and platforms of flagstones, which in strength are as good as pucca culverts; one timber tapped culvert of 17 feet span has been substantially repaired on the 5th mile of the Ranchee and Chandil road. But scarcely anything has been done in Palma Lohardugga, and Bundu and Jhalda roads. In the former it has been decided to abandon the diversion which was constructed by the late District Engineer, Mr. Naidu, and in the latter, order has been issued to align the road, and utilizing the diversion made by the late District Engineer, Mr. Naidu, and to keep to the present crossing of the Subarnakha river at the boundary of the district. This work will be taken in hand as soon as the funds permit.

PALAMOW SUB-DIVISION.

Daltongunge and Latchar road, 48 miles.—From the 30th mile to the boundary of the Sub-division, a distance of about 16 miles, with the exception of a small portion on the 30th mile, was repaired by new earthwork, drain cutting, surface-repairing and temporary wooden bridges. No new trees were planted on this road, but the old ones were maintained. The road has been made thoroughly passable through the whole length. This is the most important road, because it connects the head-quarter with the Palamow Sub-division.

Moharajgunge road, 44 miles.—From the 8th to the 26th mile i.e., up to the river Banki, the road has been made passable by new earthwork, side drains, and surface repairing. From Banki to Chatterpur, on the 30th mile, only petty repairs were done to maintain the old road, and only surface dressing was done on the portion between Chatterpur and Moharajgunge. A new diversion was commenced but not completed. Temporary wooden bridges were also constructed in many places.

Garwa road, 20 miles.—Surface dressing was done throughout the whole length of the road; earthwork and drain cutting were also executed in places, and one temporary wooden bridge was constructed.

For want of funds, maintenance works have not been executed to the desired extent throughout the Palamow sub-division; only surface repairs were done on the Daltongunge, Behar and Pankey roads during the year under report.

15. *Village roads.*—One village road has been opened in head quarter Sub-division during the year under report, but could not be completed owing to some dispute about lands. In the Palamow sub-division the whole amount allotted under this head was used for surface repair, clearing sides drains, constructing temporary culverts and maintenance of trees.

16. *Accounts.*—The monthly accounts of the road fund and of the District Engineer's office were examined by the Vice-Chairman alone, as it was found difficult to procure the attendance of two other members to examine them as was reported last year.

17. The Local Auditor inspected this, and the District Engineer's office on the 12th February 1886.

18. The establishments required under the Road Cess Act are :—

- (a) —Establishment for collection of revenue.
- (b).—Committee's office establishment.
- (c).—Engineering establishment.

19. The establishment for collection of revenue at head-quarter consists of one head clerk and accountant, one assistant clerk, one mohurir and one peon. These officers also do the work connected with the Committee's office for which there is no separate establishment. The establishment under the Sub-divisional Officer of Palamow consists of one clerk, one mohurir and one Peon.

20. The Head Clerk and Accountant, Babu Nundo Laul Chatterjee, has continued to give satisfaction in the performance of his duties.

21. The District Engineer, Babu Jogendro Noth Ghose, has lately obtained a change of appointment with the District Engineer of Backergung. The latter joined his post on the 30th November 1886, and I have not yet seen any of his work. I was dissatisfied with the manner in which the late District Engineer exceeded the budget allotments, and thus threw the accounts into confusion.

23. The District Engineer reports that out of the establishment employed under him only one Suboverseer and the clerk under him have worked well.

* * * * *

25. The works have all been executed by contract during the year under report, and the small sums advanced to contractors and planters have been adjusted, except in a few disputed cases.

26. Babu Asutosh Gupta, Assistant Magistrate and Collector, was Vice-Chairman up to 10th September 1886, and G. W. Place, Esq., c.s., Joint Magistrate and Deputy-Collector after that date.

Annual Report of the District Road Cess Committee of Manbhoom for the cess year 1885-86.

1. *Working of cess Act IX (B C) of 1880.*—Statement A will show the demands, collections and balances of cesses for 1885-86, as compared with the previous year. The increase in the demand of cesses on lands and on mines, jungles, &c., is owing mainly to the increased valuation under revision of the last revaluation; also partly to the new separate assessments on account of jungles under Chapter V of the Act. The percentage of collections to demand of cesses on land is the same as in the previous year, viz, 99 per cent. The decrease in the percentage of collections of cesses on mines and jungles is due to the fact that the people who have for the first time been assessed on account of their jungles were irregular in their payments, and nearly in every case certificate procedure had to be adopted for realization of dues; however, this decrease is overbalanced by the increase in the demand during the year under report. The remissions of Rs. 39 on account of cesses on land, and Rs. 166 on mines, &c., were sanctioned by the Board of Revenue in their letters Nos. 22A and 260A, dated 25th January and 30th August 1886, respectively. The total collection made previously in advance was Rs. 836 against Rs. 187 during the previous year. The difference may be explained by the fact that the collections which were made according to the enhanced demand under the re-valuation in 1882-83 had to be adjusted subsequently with reference to the demand under the old valuation, the surplus being carried over to the credit of the succeeding years, in consequence of the re-valuation being quashed by the Board of Revenue.

2. *Working of the Committee.*—The Committee met 13 times during the year, and there was no meeting without a quorum. * * *

The following is a summary of work done by the Committee during the year under report:—

- (1) Passing monthly Road Fund Accounts, audited by a standing Sub-Committee every month.
- (2) Preparation of a revised budget estimate of income and expenditure for the year under report, under orders of the Board of Revenue, owing to the revised re-valuation coming into effect from the commencement of the current cess year 1885-86.
- (3) Discussion over renewed applications for increase of pay from the District Engineer and Accountant, and passing of the same.
- (4) Passing of the annual accounts and report of cess year 1884-85.
- (5) Discussion over District Engineer's letter No. 108, dated 20th April 1886, reporting that, owing to no provision having been made in the revised budget estimates for the repairs of the Jhaldah and Roghoonathpur cart serais, and suggesting that the Commissioner be asked to sanction an additional amount of Rs. 500 for the repairs of the two serais, and recommendation to the Commissioner for sanction of the same.
- (6) Discussion over proposed draft bye-laws laid before the Committee by the Chairman and submission of the same through the Commissioner for the sanction of Government.
- (7) Passing of the budget estimates of receipts and expenditure for the cess year 1886-87, and consideration over Sub-overseer, Babu Banko Bhary's application for increase of pay, postponement of the same on account of some preliminary enquiries which had to be made to Executive Engineer.

3. *Branch Committees*—None in the district. Maintenance of village and other roads in the Govindpur sub-division being under the management of the Sub-divisional Officer, who draws cheques against allotments made in the budget annually. The cheques, &c., being signed and countersigned by the Chairman and Vice-Chairman of the Sudder sub-division.

4. *Working Establishment*.—There have been no changes during the year under review. *Babu Nanda Gopal Banerjee*, District Engineer, as in former years, performed his duties to my entire satisfaction, and I endorse the same good opinion of him as in former reports. I am glad to record that the increased pay he asked for has been sanctioned.

Mr. G. V. Thompson still continues as Accountant, he has worked well, keeps his books and accounts neatly and correctly. I am glad to note that his pay has also been increased.

Babu Kala Chand Singha, clerk in the District Engineer's Office, discharged his duties efficiently, and to the entire satisfaction of the District Engineer. I regret, however, *Sub-overseers*, *Baboo Banko Behary Mitter* and *Rohindud Khan*, are reported by the District Engineer as being careless and negligent of their duties.

5. *Works done during the year*.—In Appendix B is shown abstract of all works done during the year and their respective cost

- (a) *Sudder Sub-division*—The provision under head "Original Works" consisted of, (1) making a new approach to the Subornorekha river, (2) gravelling a portion of the Roghoonathpur and Bancoora road, and (3) construction of two pucca wells, one in the compound of the cart serai at Doobra, the other in the bungalow compound at Chandil. Of these the approach to the Subornorekha was the most important. The total estimated cost is Rs. 2,067-4-8, but only Rs. 1,200 could be provided for expenditure during the year. With this amount the earthwork in the approach has been completed and a good quantity of materials for other works has been collected. The approach should be open for traffic by the middle of April next.

The gravelling of a portion of the Roghoonathpur and Bancoora road has been completed, the last six miles (from Gourandi to the border of the district) which were entirely kutcha have been greatly improved. Of the wells, the one at Doobra has been made, but that at Chandil is still under construction. The work had to be stopped during the rains, as the sides slipped very much. The total estimated cost for original works amounted to Rs. 3,798-1-1.

Repair works in the Sudder sub-division were chiefly restricted to the maintenance of the different roads and partial improvements of the same. The road from Damdah to Burrabazar and Burrabazar to Koilpal, were greatly improved by gravelling muddy places, and by constructing some cheap stone culverts. The Roghoonathpur and Hazaribagh road was also improved in a similar way, and by making two rough causeways in two unbridged gaps, the approaches to these were also decently sloped down. The approaches to all unbridged nullahs and rivers on all the roads, especially those to the Kowari river on the Purulia and Chyebassa road, and Damdah and Burrabazar road, and to the Cossye on the Manbazar and Bancoora road, were very much improved with respect to gradient. The road from Purulia to Manbazar was also improved by gravelling, and a steep ghât on the 27th mile was to some extent eased down by rock cutting. The road from Hura to Manbazar (an old famine road taken up for repairs last year) was also greatly improved by earthwork and construction of cheap stone culverts making it fit for cart traffic all the way from Hura to Manbazar.

(b) The several existing *village roads* were kept in a decent condition, and the most important one (from Jhaldah to Torang) was improved in places. A new village road was started from Burrabazar, which will lead to Manbazar. Owing to difficulties in obtaining the land through which the line is to pass and from want of funds, not much progress was made during the year under report; but two of the most difficult river crossings have been improved. It is hoped that in a short time the portion between Burrabazar and Sindree will be thoroughly fit for traffic.

(c) *Cart Serais* were all maintained in decent condition, and one (the Bortoria Serai, was greatly improved by metalling the compound. On the abolition of the unions at Jhaldah and Boghoonathpur, the cart serais in these two places were transferred to the Road Cess Committee—these were also properly maintained.

(d) The big *Bandhs* at Bangoordah (the embankment of which forms part of the Burrabazar and Koilapal Road) and Purnassani were also repaired and maintained properly. In both these the principal outlet drains were greatly scoured during previous year's heavy rains, the damage done was efficiently repaired by stone pitching and pucca rubble masonry floors.

The *Bujra Bandh* was in good condition, and required nothing done to it.

(e) The *Nursery* of young trees in Purulia was abolished during the year as it was found expensive to maintain, and disadvantageous for transplantation. The maintenance of existing trees, and plantation of others on roads requiring them was carried out chiefly by the agency of contractors.

6. *Govindpur Sub-division*.—Nothing by way of "Original Works" done in this sub-division, only repairs to existing roads, &c. Of these, the most important is the road from Govindpur to Toondi, which was improved by laying down quantities of earthwork, and construction of cheap stone culverts; as far as funds permitted the approaches to unbridged nullahs were also improved, and the road is now fit for cart traffic all the way from Govindpur to Toondi. The Govindpur station roads were maintained in fair order.

The *village road* from Govindpore to Jheriya was thoroughly overhauled, and the road from Rajgunge to Nowagar via Khatras also improved.

The *cart serais* in the sub-division were maintained in fair order.

During the year under report, the staging bungalow at Nirsha was made over to the Police Department, and three cheap staging houses built, one at Madhupur on the Burrabazar Koilapal road, one at Paroi on the Hura-Manbazar road, and the third at Rajgunge. These three houses were urgently wanted for the convenience of the road inspecting officers, &c.

Form of Audit Certificate.

We hereby certify that the books and accounts specified below,* prescribed for the Road Cess office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1885-86, and they have been duly scrutinized by the Sub-Committee.

* Road Cess Office,—(1) Cash-book, (2) Cash Abstract; (3) Register of Monthly Receipts and Expenditure.
District Engineer's Office:—(1) Accounts, viz. (1) Files of Contract Certificates; (2) Files of bills for purchases or purchase lists;
(3) Files of Day-books; (4) Files of Establishment bills; (5) Files of Acquittance rolls; II Books, viz.—(3) Register of bills passed;
(3) Register of Works and Repairs; (4) Register of Tools and plant.

Also that the Treasury Officer's abstract of the account of the Committee for the year has been duly received and checked with the cash and pass-books, and found to agree therewith, except in respect of an uncashed cheque, which has been duly noted in the cash-book, and also minus the amount of imprest in the hands of the accountant at the close of the year.

That the vouchers for the payments of the year have been cancelled; that none but duly sanctioned expenditure has been incurred; and that in the case of original works the register of monthly expenditure shows clearly the amount of sanctioned estimate, the grant for the year; and generally that the work of the office has been performed with a due observance of the rules prescribed by Government.

NANDU LAL GHOSH,
RAM DOYAL MUZUMDAR,
MOHENDRA NATH NAG, } *Members of S. A. C.*

H. W. HILL,
Vice-Chairman.

Explanatory Note.

The excess expenditure of Rs. 114-8-6 under head "Establishment and Contingencies of Committee Office" is owing to the salary of the accountant and chuprasses for the month of September 1886 having been paid in September 1886 on account of the Doorgah Poojah holidays. Hence during the year, 13 months pay has been charged.

Under head "Percentage of Establishment, &c.," provision in the budget for the year under report is from the 1st October 1885 to 30th September 1886, whereas the excess payment is on account of the previous year's charges.

The extra expenditure on repair works is simply nominal. The Budget allotments are only for the year under report, whereas the expenditure includes payment on account of works done in the previous year.

The excess expenditure of Rs. 264-4-3 under head "Work Establishment" is owing to the salary of the establishment being paid for 13 months on account of the Doorgah Poojah vacation.

H. W. HILL,
Vice-Chairman.

SINGBHOO DISTRICT.

Annual report of road operation during the cess year 1885-86 ending 30th September 1886.

1. *Midnapur road.*—The whole length of the road was kept in thorough repairs, the muddy portions of the first five miles, the 10th, 11th, 12th, and 15th miles, making up a total length of 13,439 feet, or two miles and a-half nearly, were gravelled. All the repairs to bridges and culverts pointed out by the Superintending Engineer in his report of May 1885 have been particularly attended to, and nearly two-thirds of the work were completed during the cess year under report.

2. *Narsinggur-Baharagera road.*—The road was properly maintained, and four temporary bridges were thoroughly repaired.

3. *Barakur road.*—The whole road was properly looked after, and earthwork in the approaches of two bridges were completed. The heavy portions of the 4th, 5th, 6th, 8th, and 9th miles, making up a total length of four miles nearly, were improved by gravelling. All the repairs to the bridges and culverts pointed out by the Superintending Engineer in his report of May 1885, were executed.

4. *Bandgaon road.*—The whole length of this road was kept in thorough good repair. The bridges and culverts were repaired as far as funds permitted. One timber platform bridge in the 17th and another in the 20th mile were entirely rebuilt. The muddy portions of the 2nd, 3rd, 5th, 6th, 7th, and 8th miles, making up a total length of 2 miles and three quarters nearly, were gravelled.

5. *Jyntgurh road.*—This road had some parts of it very badly washed away by the rains. During the year under report these were repaired, and five masonry bridges were substantially repaired. The whole road was repaired according to requirements.

6. *Bamonhati road.*—Petty repairs were executed wherever necessary. A culvert of two four-foot spans was thoroughly rebuilt.

7. *Khursawan road.*—The earthwork in the approaches of two masonry culverts in the first five miles were repaired. One new slabstone culvert was constructed in the 2nd mile.

8. *Village roads.*—The village road leading to Jamda was superficially repaired. Nearly nine miles of fair-weather roads were opened out from Bandgaon to Tadaughathee.

9. *Arboriculture.*—All existing plants in the Bandgaon road and some on the Barakar road were properly fenced in with bamboo enclosures.

10. *Establishment.*—The establishment consists of one sub-overseer, two road sirkars and an accountant; of these the sub-overseer and the accountant deserve special notice.

The 24th January 1887.

UPENDRA NATH BANERJEE, B.C.E.,

District Engineer Singbhoom.

Baboo Gopal Hari Mullick, District Superintendent of Police, and one of the *ex-officio* members of the District Road Cess Committee, reports on the merits of the District Engineer, Baboo Upendra Nath Banerjee, B.C.E.—“I have had occasion to visit several district roads, viz., the Midnapore Road, the Ranchi road up to Chakradharpore, the Jyntgur road. There have been vast improvements noticed everywhere since last year.

In fact, these roads were in a wretched condition, and their present condition reflects great credit on the District Engineer who certainly deserves favourable mention in the annual report.

Vice-Chairman, District Road Cess Committee.

W. HOPKINSON,
Chairman, District Road Cess
Committee, Singhbhum.

EXPLANATION.

Administration.—The budget allotment under the head of administration has been exceeded by Rs. 4-15 only, as the pay of the clerk for the Committee's office for the month September 1886 was drawn by the end of September, which was due on the 1st October 1886.

Repairs.—The budget allotment for the repairs to Chakulea to Baharagura road has been exceeded by annas 13-9 only, a nominal sum, and explanation is not necessary.

CHYE BASSA, }
The 1887. }

W. HOPKINSON,
*Deputy Commissioner and Chairman,
District Road Committee, Singbhoom.*

No. 250D.R., dated Ranchee, the 11th March 1887.

From—C. C. STEVENS, Esq., Commissioner of the Chota Nagpur Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith in original, the annual accounts and reports of the several District Road Committees of the Chota Nagpore Division, for the cess year ending 30th September 1886.

2. The subjoined statement shows the number of members constituting the Road Cess Committees in the several districts, and their attendance at meetings during the year under review as compared with the preceding year :—

COMMITTEES.	CENS YEAR ENDING 30TH SEPTEMBER 1886.				CENS YEAR ENDING 30TH SEPTEMBER 1886.			
	Number of members.		Number of meetings held.	Average attendance at meetings.	Number of members.		Number of meetings held.	Average of atten- dance at meetings.

Lohardugga	6	12	7	7	4	5	10	4
Palamow Sub-division	3	12	4	6	3	12	3	5
Munbhoom	7	10	12	8	6	9	12	8
Singbhoom	4	11	6	7.5	4	11	6	5.6

3. The attendance of members was very unsatisfactory in Lohardugga, where half the number have ceased to be members through their absence from six consecutive meetings of the Committee.

4. The aggregate receipts of the year under review amounted to Rs. 2,05,539-10, inclusive of Rs. 36,599-11-5, the closing balance of the previous year, and of Rs. 13,384-2-10 the receipts under the heads of "Advances" and "Deposits." The total expenditure, including "Advances" and re-payments of deposits, amounted to Rs. 1,63,081-7. There was thus a balance of Rs. 42,458-3 when the year ended.

5. *Original Works.*—The expenditure under the head of 'Original Works' amounted to Rs. 16,955-6-1, against Rs. 18,449-1-9 in the preceding year, and a total of Rs. 31,439 provided in the budget. The expenditure on original works was very small, and was confined in the three districts of Hazaribagh, Lohardugga, and Manbhoom. No original works were undertaken in Singhbhoom, though in the budget estimates of the past year a sum of Rs. 11,742 had been provided for the purpose. In this district the sanctioned

2. Khursowan "

grants for the repairs of the roads noted on the margin were found to be inadequate, and accordingly the Committee, with the previous sanction of this office, transferred a sum of Rs. 5,140 from the provisions made for "Original Works" to "Repairs."

6. In Hazaribagh the disbursements under this head amounted to Rs. 5,893-9-3. The works executed consisted of a parapet on the Lalaband bridge in the Hazaribagh and Chattra road, the earthworks on its approaches, the completion of the earthwork on the Burhee and Gowan road, the sinking of a well at Lepo, the construction of a cart sarai at Bogodar on the Grand Trunk road, the construction of an inspection bungalow at Gowan, and of some culverts on the Giridi sub-divisional village roads.

7. In Lohardugga Rs. 9,531-15 was spent on original works—chiefly in the construction of a permanent masonry bridge on the Ranchi-Lohardugga road, and the building of a number of inspection huts.

8. In Manbhoom Rs. 1,529-13-10 was spent in diverting the approach to the Subarnarekha river, in constructing two pucca wells, one in the Doobra cart sarai, and the other in the Chandil bungalow compound, and in gravelling six miles of the Raghunathpur and Bancoora road beyond Gourangdih. A large quantity of materials for works is also said to have been collected in this district.

9. *Repairs.*—Under the head of 'Repairs' the total expenditure during the past cess year amounted to Rs. 82,773-1-10 against, 78,952-15-10 in the preceding year, and Rs. 82,453 the total sum originally provided in the budget estimate of the year.

10. In Hazaribagh the budget provision amounted Rs. 22,183, out of which, Rs. 18,334-0-10 was spent in the maintenance of roads, aggregating 352 miles in length. In Lohardugga the original budget provision for repair works amounted to Rs. 28,954, but subsequently, with the sanction of this office, a sum of Rs. 1,497-13-8 was transferred from the head of original works to repairs. The actual expenditure during the year

amounted to Rs. 30,451-13-8, which was spent in maintaining nine roads of the sudder and about 54 miles of three of the more important roads of the Palamow sub-division.* In Singhbhoom the original allotment for repair works amounted to Rs. 7,006-12, but subsequently a further sum of Rs. 5,140 was allotted by transfer from original works under the circumstances explained in a preceding paragraph of this report. The expenditure, however, amounted to Rs. 8,190-6-6 only, which was spent in the maintenance and repairs of the roads noted on the margin.

11. *Village roads.*—During the past year, except in Singhbhoom, the improvement of village roads received a fair share of the attention of the District Road Committees. Out of a total sum of Rs. 14,997 provided in the budget estimates, Rs. 13,288 was actually spent within the year. In Singhbhoom the sum spent on the maintenance of village roads amounted to Rs. 270-7 only. In Lohardugga a sum of Rs. 152-11-8 was spent in excess of the sum originally allotted in the budget estimate.

12. *Arboriculture.*—Under this head the efforts of the several District Committees have been mainly directed to the maintenance of trees which had been planted on the road sides in previous years.

13. *Establishments.*—The establishments employed under the several District Road Cess Committees are reported to have on the whole given satisfaction in the discharge of their respective duties. The late District Engineer of Lohardugga, Baboo Jogendro Chunder Ghose, alone has been found fault with by the Chairman of Lohardugga District Committee, owing to the fact of his having exceeded the budget allotments, and thus thrown the accounts into confusion.

LAND SALE NOTICES.

NOTICE is hereby given, under section 6, Act XI of 1859, section 11, Act VII (B.C.) of 1868, and II (B.C.) of 1871, that the undermentioned dependent tenures in the Cox's Bazar Khas Mohal, in the district of Chittagong, will be put up to public and unreserved sale at the Collector's office of that district on the 10th day of May 1887, for arrears of rent and cesses remaining unpaid after the last day of payment, the 26th day of December 1886:—

NOTICE UNDER RULE 17, SECTION II, PART I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of Sundarbans, has been applied for by Prosunno Coomar Sircar, and will be sold at 12 o'clock noon on the 1st August 1887, Monday (17th Srabun 1294 B S), at the Sundarban Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands, dated 12th November 1879.

Conditions.

That the lands shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals in the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans has been applied for by Akbur Shaik, and will be sold at 12 o'clock noon on the 1st August 1887, Monday (17th Srabun 1294 B. S.), at the Sundarban Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the sale of leases of waste lands, dated 12th November 1879.

Conditions.

That the lands shall be subject to all existing rights of way and water and other easements.
That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.
That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearance, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.
That the Government reserves to itself the right to all minerals in the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

J. ELLISON, Deputy Collector in charge Sundarbans.

Sundarbans Commissioner's Office, Camp Lot No. 138, the 18th April 1887.

NOTICE is hereby given that the Government proprietary rights in the undermentioned estate in the Burdwan District will be put up to sale, revenue-free, at the Cutcherry of the Sub-Divisional Officer of Calna on the 6th May 1887, corresponding to 24th of Baisakh 1294 B.S.

The purchasers will be subject to the following conditions of sale:—

- 1st.—If the purchase money does not exceed Rs. 100, the whole amount of the bid must be paid up at once.
- 2nd.—If the purchase money exceeds Rs. 100, one-fourth of the amount of the bid must be immediately paid up. If the balance be not paid up by noon of the fifteenth day after the day of sale, reckoning the day of sale as one day, or if that day be a close holiday, then by noon of the first succeeding opening office day, the sale is to be cancelled and the sum deposited being forfeited to Government, and the land is to be again put up to sale at the risk of the defaulting purchaser, after the issue of a fresh advertisement as in the case of original sale.
- 3rd.—The lands will be sold rent-free to the highest bidder above and excess the upset price fixed for the estate.
- 4th.—Possession will be given to the purchaser after the confirmation of the sale.

L. HARE, for Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bazilpur-Dalsingserai section of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale on the 5th day of July 1887 at office of Collector of Durbhunga. The purchasers of the several plots of land will be subject to the following conditions:—

1. The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.
2. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
3. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the 1st succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
4. The balance of purchase-money due under the 3rd condition may be paid either to the Collector or into the Government treasury, Durbhunga.
5. The plots of land will be sold revenue-free to the highest bidder.
6. The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

H. S. BRADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue-free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series: one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act, passed by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, received the assent of His Honour the Lieutenant-Governor on the 2nd April, 1887, and having received the assent of His Excellency the Governor-General on the 15th idem, is hereby published for general information:—

ACT No. III OF 1887.

An Act to amend the Calcutta Port Improvement Act, 1870.

WHEREAS it is expedient to further amend the Calcutta Port Improvement Act, 1870: It is enacted as follows:—

I. This Act may be called "The Calcutta Port Improvement Act Amendment Act, 1887."

II. It shall be read with, and taken as part of, Bengal Act V of 1870 as amended by Bengal Acts

VII of 1871, III of 1872, IV of 1880, I of 1881, and XI of 1883, and it shall come into force on such date as may be fixed by the Lieutenant-Governor, not being more than three months after the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

III. Sections 2, 4 and 14 of Bengal Act V of 1870 are hereby repealed. This repeal shall not affect the validity of anything done or suffered, or any right, title, obligation or liability accrued before the commencement of this Act.

Constitution of Commissioners.

IV. There shall be thirteen Commissioners, that is to say—

six elected Commissioners,
six nominated Commissioners, and
a Chairman:

Provided that, when all the vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 have been filled under the first four clauses of section 10, not less than two of the Commissioners shall be natives of India residing in Calcutta or Howrah.

Election and appointment of Commissioners.

V. Of the elected Commissioners—

four shall be elected by the members for the time being of the Bengal Chamber of Commerce,

one shall be elected by the members for the time being of the Calcutta Trades' Association, and

one shall be elected by the Commissioners of the Town of Calcutta,

in such manner as shall, from time to time, be determined, at a meeting of the members of the said Chamber, at a meeting of the members of the said Association, and at a meeting of the said Commissioners of the Town of Calcutta, convened in accordance with the rules at the time in force in this behalf.

The President of the said Chamber, the Master of the said Association, and the Chairman of the said Commissioners of the Town of Calcutta shall each make a return to the Lieutenant-Governor of the name of every person so elected by the said Chamber, the said Association, and the said Commissioners of the Town of Calcutta, and such return shall be published in the *Calcutta Gazette*.

VI. In the event of default being made by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta in electing any Commissioner under the last preceding section within the period hereinafter prescribed in this behalf, it shall be lawful for the Lieutenant-Governor to appoint a person, and the person so appointed shall be deemed to be a Commissioner as if he had been elected by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta, as the case may be.

VII. The nominated Commissioners and the Chairman shall be appointed by the Lieutenant-Governor by notification in the *Calcutta Gazette*.

VIII. The Lieutenant-Governor may, from time to time, appoint one of the Commissioners to be Vice-Chairman, and may cancel such appointment.

IX. Notwithstanding anything in this Act contained, the Commissioners appointed under section 2 of Bengal Act V of 1870 shall continue to hold office until the expiry of the term prescribed in section 3 of the said Act.

X. Each of the first four vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 caused by Commissioners, who at the time of their appointment were members of the Bengal Chamber of Commerce, ceasing to act, shall be filled by election by the members for the time being of the Bengal Chamber of Commerce in the manner provided in section 5.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of 1870 is caused by a Commissioner, who at the time of his appointment was a member of the Calcutta Trades' Association, ceasing to act, such vacancy shall be filled by election by the members for the time being of the Calcutta Trades' Association in the manner provided in section 5.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of

1870 is caused by the Chairman of the Commissioners of the Town of Calcutta ceasing to act, such vacancy shall be filled by election by the Commissioners of the Town of Calcutta in the manner provided in section 5.

All other vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 shall be filled by appointment by the Lieutenant-Governor in the manner provided in section 7.

And thereafter all vacancies caused by elected Commissioners ceasing to act shall be filled by election under section 5, and all vacancies caused by nominated Commissioners ceasing to act shall be filled by appointment under section 7.

XI. All vacancies in the number of the Commissioners, whether appointed under Bengal Act V of 1870, or elected or appointed under this Act, shall be filled by election or appointment, as the case may be, within one month.

XII. Any casual vacancy in the number of the Commissioners occasioned by death, resignation or disqualification shall be filled up in the same manner, and subject as far as may be to the same provisions, as are applicable in the case of original elections and appointments of Commissioners.

XIII. In section 3 of Bengal Act V of 1870, before the word "re-appointed" shall be inserted the words "re-elected or," in section 5 the words "as hereinbefore provided" shall be omitted, and before the word "appointed" shall be inserted the words "elected and;" in section 3 and section 12, before the word "appointed" shall be inserted the words "elected or," wherever the same occurs; and in section 12 and section 13, before the word "appointment" shall be inserted the words "election or," wherever the same occurs.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 3rd May 1887.

RESOLUTION.

READ—

The Progress Report of the Bengal Economic and Art Museum for the year 1886-87.

This Report was submitted to Government by the late Committee of the Bengal Economic and Art Museum on the 31st March 1887, and on the following day the Committee was dissolved after making over to the Trustees of the Indian Museum the collections of the Bengal Economic and Art Museum: These collections the Trustees of the Indian Museum were empowered by Act IV of 1887 to receive, and they will for the future be in charge of the Assistant Curator, an officer who has been appointed with the sanction of the Secretary of State, and who will act under the control of the Trustees.

The work of consolidating the collections was continued during the year. As was noted in last year's Resolution, the collections are divided into four sections, viz., Artware, Economic, including timber, Ethnology, and Industrial. In the Artware section in which the specimens are classified in 27 groups and number about 8,670, much work was done in systematising the arrangements and in labelling the specimens with available information. Show-cases were bought for the better exhibition of specimens. In the Economic section, which has 17,785 specimens, exclusive of timber, arranged in 13 classes, the collections were in part re-arranged. Two hundred and one new specimens were received in this section during the year, and a considerable number of specimens which had become worm-eaten and decayed were destroyed. A large portion of the timber collection was handed over to the Government of India to be used in making the timber trophy for the London Exhibition. The Ethnology section has been expanded by taking into it a large hall belonging to the temporary buildings. New glass cases have been provided for the exhibits in this section, and much work has been done in labelling and re-arrangement. In the Industrial section, which contains almost all the presentations made to the Bengal Government by exhibitors of the British and Foreign Courts at the Calcutta Exhibition of 1883-84, no change was made. The Committee had charge during the year of the accounts and correspondence work connected with the exhibits from these Provinces sent to the London Exhibition.

More than four hundred thousand persons visited the Museum during the year, the monthly average being 34,000 as against a monthly average attendance of 24,500 in the preceding year. The number of visitors was greatest in October and February; in the former month the Durga Pooja holidays were observed, and in the latter month 6,723 persons visited the Museum on the day of celebration of the Jubilee of the Queen-Empress.

The Lieutenant-Governor takes this opportunity of publicly acknowledging the services rendered by the members of the late Committee, and in particular by Mr. Horace Cockerell, their Chairman, ably assisted by Mr. Alexander Pedler, their very efficient Secretary. The valuable collection entrusted to the Committee was found to be in excellent order when it was transferred to the Trustees of the Indian Museum.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period for the past ten years. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number of stations in the district sending returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 29th April 1887.

CALCUTTA, the 22nd April 1887.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 29TH OF APRIL 1887.

During the previous week a rapid increase in the intensity of the hot weather conditions had taken place in Bengal. A rapid fall of the barometer had also occurred, which had been greatest in the neighbourhood of the hills in North Bengal. In fact, at the commencement of the present week, pressure was comparatively low at many of the North Bengal stations, though perhaps the low pressure area could scarcely be called a distinct barometric depression. This low pressure area was apparently gradually filled up, and towards the close of the week under review pressure became comparatively low over parts of Western and Central Bengal, the band of low pressure still stretching towards North Bengal. This distribution of pressure has caused the wind system blowing over the province to be somewhat unusual. South-westerly winds have prevailed over practically the whole of Orissa and South-West Bengal, and even in parts of East Bengal, the prevailing wind direction for the whole of the week at Je-sore having been westerly, while even at Noakholly south-westerly winds were reported on every day of the week. In East Bengal winds have been generally south, in North Bengal south-east, and in Behar usually easterly, and finally in Chutia Nagpur winds have been westerly and south-westerly. Owing probably to the rapid increase in temperature which had taken place in the previous week, and to the high temperatures which obtained at the commencement of the present week, and which were giving unusually large differences of temperature, and perhaps also to the distribution of pressure above described, a very rapid increase in the strength of the southerly winds blowing at the head of the Bay took place, and particularly during the middle and towards the close of the week these winds were of most unusual force. This is shown by the fact that the wind velocity at Sagar Island for the whole week has averaged more than 20 miles an hour, while on the 28th and 29th it averaged 23 miles an hour; also at Calcutta for the same days the wind velocity averaged 15 miles an hour, while at False Point and Gopalpore it averaged about 20 miles an hour. At the same time the moisture brought up by the strong sea winds commenced to give heavy rain over parts of North and East Bengal, and some districts of these divisions received copious rainfall towards the close of the week, while on the last day, owing to the slightly disturbed conditions above alluded to having passed towards Central Bengal, rain showers became rather frequent in parts of Central and South-West Bengal.

Pressure—Variations during the week have been decidedly large. Following on the rapid fall of the barometer in the previous week there was a rapid increase, on the 23rd, generally amounting to from a tenth to a twentieth of an inch; a further considerable general rise took place on the 24th and 25th, but this was then succeeded by a fall which lasted till the close of the week, the fall being brisk on the 27th, when at some stations it almost equalled a tenth of an inch. Such rapid fluctuations as these always show that atmospheric conditions are unsettled, and that this was the case has been previously shown by the occurrence of heavy rainfall over parts of the province. Though the fluctuations of pressure during the week have thus been large, the variations of the mean pressure from the normal for the week are comparatively small, and the largest (trustworthy) variations are an excess of about two hundredths of an inch at False Point, Chittagong and Dacca. At most stations the variations of the mean pressure from the normal do not amount to more than a few thousandths of an inch.

Temperature.—The changes of temperature have not been so large during the present week as they were in the former one. At the commencement, usually, temperature was very high over the whole province, it then in many cases fell during the middle of the week, and rose again during the last two days. At other stations, particularly those in the western districts, temperature has risen steadily almost throughout the week. Generally speaking the mean temperature of the whole province for the week has been about one degree above the normal, but the distribution has been a little unequal; for while the temperature of South-West and East Bengal and of Chutia Nagpur has been about 2° above the normal, over the remainder of the province an almost normal temperature has prevailed. The excess temperature has again been more noticeable in the night or minimum temperatures than in the day temperatures. This can be seen in the table below, which gives the temperature data for eight representative stations, and in these cases, while the mean night temperature for the week has been 2° in excess of the normal, the day temperature has been only 0·3° in excess.

Table showing the excess or defect of the actual temperature from the normal for the week ending 29th April 1887.

Darjeeling	60·5	61·1	+0·6	46·1	50·3	+4·2	53·3	55·7	+2·4

Some very high maximum temperatures have been reported during the week, and thus in Orissa, at Cuttack, maximum temperature was 108.4° on the 23rd; in South-West Bengal, at Ranigunge, on the 28th, temperature was 109.1° ; in South Behar, at Gya, on the 26th, it was 107.6° , and in Chutia Nagpur, at Ranchi, on the 28th, it was 105° . The highest maximum temperature registered at Calcutta during the week was 101.9° on the 23rd.

Rainfall.—Owing to the disturbed conditions above described, considerable amounts of rain have fallen in parts of North Bengal and in some of the districts in East Bengal during the greater part of the week, while on the 26th showers were reported in Central and South-West Bengal. The heaviest and most general rainfall has occurred in the districts near the hills in the north and east of the province. Thus the district of Rungpore reports an average fall of 4.74 inches, that of Julpigoree one of 3.12 inches, and the Darjeeling district a fall of 2.10 inches. Again, in the Mymensingh district there has been a general fall of 0.92 inch, and in the Dacca district a fall of 0.57 inch. The other localities which have received moderate amounts of rain are the districts of Midnapore, Bancoorah, Krishnagur, Furreedpore, Serajgunge and Rampore Bauleah. At some stations in North Bengal the falls have been particularly heavy, and thus at Kurigram in the Rungpore district 11.75 inches of rain fell during the week—6.65 inches falling on the 27th and 5.02 inches on the 28th, making a total of nearly ten inches of rain in two days. The following are also some heavy falls which have been reported:—On the 23rd instant, at Alipore Doar (Julpigoree district) 3 inches, at Meckligunge (Cooch Behar districts) 2.89 inches, and at Kalimpong (Darjeeling district) 1.92 inches; on the 25th at Buxa (Darjeeling Hills) 3.20 inches; on the 27th at Bhowanigunge (Rungpore district) 2.58 inches, at Ulipore (Rungpore district) 2.65 inches, at Dinhatta (Cooch Behar district) 2.64 inches, and at Matabhanga (Cooch Behar district) 2.15 inches, and on the 29th at Durgapore (Mymensing district) 2.66 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 29th of April 1887:—

MEMORANDUM.

DURING the week ending 16th April 1887, births and deaths were registered in the principal Municipalities in Bengal at the rates, respectively, of 18·5 and 26·7 per 1,000 of population, against 19·9 and 30·7 per 1,000, respectively, during the preceding week ending 9th April, indicating a considerable falling off in the registration of both the events, particularly of deaths.

2. The following Municipalities returned the highest proportions of births and deaths :—

Births.			Deaths.		
		Ratio per mille.			Ratio per mille.
Comillah	...	65·5	Naraingunge	...	95·2
Beauleah	...	57·8	Gya	...	52·6

Naraingunge	...	29·0	Utterpara	...	37·7
			Durbhanga	...	29·9

*3. The following table denotes that, as compared with the outcome of the preceding week, there was a diminution of mortality from cholera and fever, but no noticeable differences in the casualty-rates from the rest of the diseases—*vide* figures given below :—

					Ratio per mille during the weeks ending—	
					16th April 1887.	9th April 1887.

4. Of the death-causes above named, cholera and the diseases coming under the head of " Other causes " caused the highest mortality in the following Municipalities, and the rest of them did not prove conspicuously fatal anywhere, excepting bowel-complaints, which appears to have prevailed with marked severity in the Utterpara town, where the death-rate stood at 28·3 per 1,000 of population :—

NOTIFICATION.

The 9th May 1887.—The following communication, received from the Government of India, Home Department, dated the 16th April 1887, is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

No. 88, dated Simla, the 16th April 1887.

Endorsed—By the Government of India, Home Department (Sanitary).

Copy forwarded to the Government of Bengal (Financial Department), for information.

No. 36, Statistics and Commerce, dated India Office, London, the 3rd March 1887.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD herewith, for your information, a copy of a letter from the Foreign Office, dated the 16th February, and enclosure, relative to the removal of quarantine against Calcutta.

Dated the 16th February 1887.

From—JAMES FERGUSON, Esq.,

To—The Under-Secretary of State for India.

I AM directed by the Secretary of State for Foreign Affairs to transmit to you, to be laid before the Secretary of State for India in Council, the accompanying extract from a report as marked in the margin, reporting the discussion at the meeting of the Egyptian Board of Health which resulted in the removal of quarantine against Calcutta.

Extract—Dr. Mackie is Consul Cook-son, No. 2, Commercial.

Extract.

"I HAVE the honour to report that an ordinary meeting of the Maritime and Quarantine Sanitary Board was held on 1st February.

"The British Delegate communicated a telegram from Calcutta, showing the rapid diminution of cholera in that city, and the actual small mortality with no epidemic tendency for some time past.

"He, in consequence, proposed that the existing quarantine against arrivals from Calcutta should be suppressed. This proposition was strongly opposed by the Delegates of Austria, Germany, and Spain, who insisted that Indian ports should be treated in the same manner as European ports, and that quarantine should be maintained while cholera existed. The Delegates for France and Russia, though not taking part in the discussion, expressed their intention to vote against any proposition. On being put to the vote, 10 voted for suppression of quarantine, 7 against, and 1 abstention. Seven of those who voted with me in favour of my proposition were Egyptian and Anglo-Egyptian Delegates, without whose assistance my proposition would have been rejected. There is still a strong desire with several of the European Delegates to maintain perpetual quarantine against India."

NOTICE TO MARINERS—(No. 21.)

EAST COAST OF INDIA.

BAY OF BENGAL.

MADRAS COAST.

THE following information has been received from Commander Carpenter, R. N., in charge of the India Marine Survey :—

Rockingham Patches.—Lying close off the Coast, 25 miles South of Madras, consist of a few rocky heads inside the 10-fathom line. The shoalest water found on them was 11 feet and the outermost danger, $3\frac{1}{2}$ fathoms rock, lies on the following bearings, at one-and-a-quarter miles off the shore :—

Red light tower	...	S. W. by S.,	distant $5\frac{1}{2}$ miles.
Tripalur Hill	...	N. W. by W.	" $4\frac{1}{4}$ "
Extreme of Covelam point	...	N. $\frac{1}{2}$ E.	" 6 "
Finger Peak	...	S. W. by W. $\frac{3}{4}$ W.	" $11\frac{1}{2}$ "

Vessels should not get into less than 12 fathoms in passing this danger. Tripalur Hill is low, and has a temple on it that looks like a bungalow.

Finger Peak, which is not conspicuous when bearing northward of West, is the southernmost part of all the high land visible.

The Red light tower is a conspicuous object by day. The distance off shore judged by eye is very deceptive.

Pulicat shoals.—The 4-fathom mud bank reported by the S. S. *Clan Mackintosh*, in June 1884, to exist in the vicinity of these shoals, and six miles off the land, was lately searched for in vain by H. M. I. M. S. *Investigator*, and may be removed from the charts.

Bearings are magnetic.—See Admiralty Charts, Coromandel Coast, Sheets III and IV, Nos. 71c and 71d.

By direction of the Government of Bengal,

Port Officer of Calcutta.

BRAHMA MOHAN MALLIK,

Inspector of Schools, Western Circle.

HUGLI, the 30th April 1887.

Government Engineering College, Seebpore.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 25th May 1887. The Session begins on Monday, the 6th June 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F.A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June 1887. They must send in their applications before 25th May 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight.

Further particulars will be supplied on application to the Principal.

S. F. DOWNING,

Principal, Govt. Engineering College.

SEEBPORE, the 25th April 1887.

Yearly Examination for Fourth Grade Accountants.

THE yearly examination of candidates for the fourth grade of Accountant, Public Works Department, will be held at the Government Engineering College, Seebpore, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Vide rules below—

		<hr/> 600 <hr/>	<hr/> 400 <hr/>

Minimum required
in all papers col-
lectively.

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burmah only. Candidates will not be examined in any of the Calcutta offices.

(a).—Todhunter's Mensuration for Beginners.

(b).—1. "Book-keeping" by Ball and Hamilton; 2. Book-keeping by double and single entry by W. Inglis Chambers' Educational Course).

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10, and the following certificates. Certificates may be submitted in original or true copies, attested by an officer of the Engineer or Accounts Branch, but no certificate will be returned :—

- (1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).
- (2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ).
- (3) Certificate that the application is in candidate's handwriting. It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons, who are already employed in the department.

PART IB.

ORDERS BY THE LIEUT-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 4th May 1887.—It is hereby notified for general information that, in the exercise of the powers conferred on him by section 6, clause (c) of the Bengal Ferries Act, 1885, the Lieutenant-Governor is pleased to establish a public ferry over a branch of the river Baghmata, known as the Joga Nala, between the mouzaha of Karlahiya and Dagrava, situated in the thannas of Belsund and Katra, respectively, in the district of Mozufferpore.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 4th May 1887.—Whereas a notification, dated the 18th January last, was published at page 14, Part IB of the *Calcutta Gazette* of the 19th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Part VII of Act III (B.C.) of 1884 to the portions of Wards I, II, and III of the Bhagulpore Municipality, as defined below, which are situated within a quarter of a mile from the nearest hydrant, and whereas no valid objection has been raised within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Bhagulpore Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the said provisions to the limits mentioned above:—

Boundaries of Wards I, II, and III within which Part VII of the Act has been extended.

On the north by the bank of the river Ganges and the old bed of the Ganges called Jamunia; on the south by the railway line of the East Indian Railway; on the east by a nulla on the east of Barari Thakur's garden between the river and the culvert on the cutcha road leading to Barari School, thence by a straight line to the road east of race-course, and thence by the said road to the line of the East Indian Railway; on the west by a line which runs north to south from the old bank of the Jamunia along the western boundary of Teelakotee garden or compound to the Champanaggar road, thence by a portion of the Champanaggar road up to its junction with the Cleveland road, thence by the public garden road, thence by a portion of the Nathnaggar road up to the north-east corner of the Racquet Court compound, and thence by the Shahgunge road to the railway Mokratown bridge.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ERRATUM.

The 5th May 1887.—In the declaration, dated the 19th March 1887, published at page 94, Part IB of the *Calcutta Gazette* of the 23rd idem, regarding the acquisition of a plot of land required for a Municipal Office in the town of Bussirhat, in the district of the 24-Pergunnahs, for "on the south by Mir Mohabut Ali's house" read "on the south by Mir Mohabut Ali's land."

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th May 1887.—In supersession of the notification, dated the 10th March 1887, published at page 73, Part IB of the *Calcutta Gazette* of the 16th idem, it is hereby notified for general information that, under rule 32 of the rules framed under section 138 (a) of the Bengal Local Self-Government Act, 1885, the Lieutenant-Governor is pleased to fix Monday, the 18th July 1887, as the date for holding an election under section 19 of the Act, in thana Egra, in the district of Midnapore, for the purpose of filling the vacancy in the representation of that thana on the Local Board of Contai, caused by the death of Baboo Srinath Chandra Das Mahapatra.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th May 1887.—It is hereby notified for general information that, under Rule 32 of the rules made under clause (a), section 138 of the Bengal Local Self-Government Act, 1885, the Lieutenant-Governor is pleased to fix Saturday, the 16th July 1887, as the date for holding an election under section 19 of the Act, in thana Jibannagar, in the district of Nuddea, for the purpose of filling the vacancy in the representation of that thana on the Local Board of Chooadanga, caused by the death of Baboo Kedar Nath Mookerjee.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th May 1887.—Whereas a notification, dated the 28th January 1887, was published at page 21, Part IB of the *Calcutta Gazette* of the 2nd February 1887, declaring the intention of the Lieutenant-Governor to extend the provisions of sections 224, 225, 234, 235, 249 to 251 (inclusive), 254 to 257 (inclusive), 266, 268, 269, 273, 274, and that portion of section 271 which applies to section 225 of Part VI of Act III (B.C.) of 1884, to the Ghattal Municipality, in the district of Midnapore, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Ghattal Municipality made at a meeting, the Lieutenant-Governor sanctions the extension of the said sections to that municipality.

COLMAN MACAULAY,

LAND SALE NOTICES.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans has been applied for by Akbar Shaik, and will be sold at 12 o'clock noon on the 1st August 1887, Monday (17th Srabun 1294 B. S.), at the Sundarban Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the sale of leases of waste lands, dated 12th November 1879.

Conditions.

That the lands shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearance, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals in the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bazitpur-Dalsingserai section of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale on the 6th day of July 1887 at office of Collector of Durbhunga. The purchasers of the several plots of land will be subject to the following conditions:—

1. The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.
2. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
3. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the 1st succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
4. The balance of purchase-money due under the 3rd condition may be paid either to the Collector or into the Government treasury, Durbhunga.
5. The plots of land will be sold revenue-free to the highest bidder.
6. The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

H. S. BEADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887. The purchasers of the several plots of land will be subject to the following conditions:—

- 1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than three feet from its foundation.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
- 4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.
- 5th.—The plots of land will be sold revenue-free to the highest bidder.
- 6th.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF APRIL 1887.

The month of April may be taken as the first full month of the hot season in Bengal, and the meteorological conditions of this month are hence characterised usually by steadily increasing temperature. At the same time also pressures generally decrease, considerably during the month, the decrease being brought about by a series of oscillations in which the downward movement is greater than the upward. Hot-weather storms or nor'-westers are also generally rather frequent in this month, and they are apparently brought about by the fact that the winds blowing over the province frequently form a kind of converging system, the component parts of which are of totally different character. Thus southerly and south westerly moist sea winds blow over the south of the province, and, as the month advances, they penetrate to a further distance inland. In East Bengal, on the other hand, these winds appear as south-east winds. Dry hot westerly winds blow from Northern India over the greater part of Behar and Chutia Nagpur, while easterly winds usually blow down the Assam Valley, and advance over the northern parts of the province. These three wind components vary in strength and persistency, and also in humidity, and by their interaction, which may take place in different parts of the province, nor'-westers are undoubtedly produced. The following short summary of the characteristics of these small storms was given in the weekly report for April 1st:—"Nor'-westers are local storms limited to a small area, but which are due to a general disturbance of the atmosphere over a large area. They may occur on the same day in East, North and South-West Bengal, but the storms in one district are not, as a rule, the continuation of storms in another district, in which respect they differ entirely from the larger cyclonic storms of the south-west monsoon. For some days before they occur the barometer falls in Bengal and Northern India; the sea winds blowing across the Bengal and Orissa coasts increase in strength and bring up much aqueous vapour into Bengal; whilst the land winds down the Brahmaputra and Gangetic valleys strengthen considerably. Bengal thus becomes a focus towards which winds, opposed in direction and character, converge. The result of their interaction during the hot-weather months is frequent periods of disturbance, shown chiefly by the occurrence of local thunder-storms. The barometer falls slowly for some days before, and oscillates rapidly during their occurrence. Each thunder-storm affects a small narrowish area, and probably does not advance as a violent storm more than 30 to 40 miles. They are accompanied by much atmospheric commotion on the small scale, frequently shown by the appearance of two, three, or even a greater number of cloud masses, moving at different elevations in different directions. The rainfall which accompanies these storms is hence very irregularly distributed, but as a general rule is greatest in the districts of East and North Bengal bordering on the Himalays, the Assam and Arracan hills, and is least in Behar and Central Bengal."

All the rain which is received in Bengal in April is practically brought up by these local storms, so that its distribution is sometimes very irregular.

At the latter end of March an unusually extensive and vigorous series of storms, accompanied by heavy rainfall in many districts, had occurred over the province, but with the disappearance of the disturbed conditions pressure had rapidly risen, and by the close of that month fine clear weather was established over the province. Owing also to the heavy rainfall which had accompanied these storms, the temperature was remarkably low for the season. At this time westerly winds were blowing in Behar and light unsteady winds in Bengal; but with the rapid increase of temperature which took place in the interior of the province, southerly moist winds again set in at the coast districts, and gradually extended their influence over the greater part of Bengal. Conditions became slightly unsettled again about the 6th or 7th, when a small disturbance, which appears to have formed in Upper or Central India, entered the province and gave light rain to South Behar and Chutia Nagpur on the latter date. The indraught towards the small disturbance increased considerably on the 7th and 8th, and strongish winds prevailed throughout the province; and on the 8th the disturbance passed into Southern Bengal, giving light to moderate showers over all parts of the province except Orissa on the one side, and East and the greater part of North Bengal on the other. On the 9th weather conditions became nearly settled in Chutia Nagpur and South-West Bengal, while the area of disturbance extended to North Bengal and Behar, where fairly general rain fell on this day. The wind directions over the province continued somewhat unusual, and about this period moist easterly winds were blowing over Behar instead of the usual dry westerly winds, and the air was consequently damper than usual over the interior of the province. A rapid fall of pressure then commenced on the 12th, accompanied by a decided increase in the strength of the southerly winds blowing over the coast districts, and of the easterly winds blowing in Behar, and slight atmospheric disturbance was caused which gave thunder-storms on the 14th in the neighbourhood of the hills in North Bengal and Behar, in the Sonthal Pergunnahs, in Maubhoom, and in many districts in South-West Bengal. On the 15th the disturbance extended to the south, and gave moderate rain to Orissa and the greater part of South-West Bengal, and also in the hill districts of North Bengal.

Up till about the middle of the month the weather over the province had been decidedly cooler than usual, and winds had been mainly southerly and easterly, but on the 18th westerly winds were re-established in Central and South Behar, and gradually extended eastwards,

and forced their way across West into Central Bengal, producing of course a very rapid decrease in humidity, but a correspondingly rapid increase in temperature. There was in fact an unusually rapid increase in temperature on the 21st and 22nd, and temperatures reported about this date were very high. All the western districts at this time were practically free from rain, but showers continued to fall in East and North Bengal. These conditions were accompanied by a decidedly rapid and almost continuous fall of pressure during the week, which was greatest in the neighbourhood of North Bengal, and on about the 22nd pressure was decidedly low over this area, though perhaps it scarcely amounted to the formation of a distinct barometric depression. This low pressure area afterwards practically filled up, and towards the close of the month it had extended towards Central and Western Bengal. This distribution of pressure caused the wind system blowing over the province to be somewhat unusual; south-westerly winds were reported over the whole of Chutia Nagpur, Orissa and South-West Bengal, and even as far east as Noakholly in East Bengal south-westerly winds were reported on every day of the last week of the month; in North Bengal winds were south-easterly and in Behar easterly. Owing to the great increase in temperature before alluded to, which had taken place over the province, which continued for several days, and which had caused unusually large differences of temperature to obtain, and perhaps owing to the somewhat abnormal distribution of pressure just described, the sea winds blowing at the head of the Bay commenced to increase in force very rapidly, and on the 28th and 29th were blowing with most unusual force. This is shown by the fact that the wind velocity at Saugor Island for the last week in April averaged 20 miles an hour, and on the 28th and 29th it averaged 23 miles an hour; also the wind velocity at False Point and Gopalpur on the same days was 20 miles. The large amounts of moisture which were thus brought up by these strong winds commenced to give heavy rain over parts of North and East Bengal on about the 25th and 26th, and on the 29th, owing to the disturbed conditions having passed towards Central Bengal, showers became rather frequent over South-West Bengal on this day and on the 30th.

One feature of interest in the meteorology of April was the setting in of strong winds in the south of the Bay, as shown by the observations at the Ceylon stations on about the 28th instant. They only lasted for a day or two and then died away. This would probably point to an early setting in of the rains in the south of the Bay. It is possible that the small cyclone or cyclonic storm reported from Rangoon on May 3rd may have been a small storm in the front of this first advance of monsoon winds.

Pressure.—The barometric movements during the first week of the month were small and of little importance, and pressure was at that time very considerably in excess of the normal, the excess averaging about a tenth of an inch. During the second week the barometric changes were large, but the tendency of the changes was to slightly reduce the pressure, and there was a general fall of from 0.01" to 0.03", but still the mean pressure of the week was very considerably above the normal, and at this period the excess pressure was more marked over and near the Himalayan area than elsewhere. Pressure gave way almost continuously during the third week, and the average fall over the province was nearly equal to two-tenths of an inch, the fall being largest in North Bengal and North Behar. The mean pressure for this period was hence considerably below the average pressure of the week, and deficiency ranged from 0.06" in South and East Bengal and South Behar to 0.03" in Orissa. In the last week of the month also pressure variations were decidedly large, and following on the rapid fall of the barometer in the previous week, there was a rise which lasted from the 22nd to the 25th, but which was followed by another fall of almost equal amplitude, lasting from the 26th to nearly the end of the month.

The variation of the mean pressure of the province for the month from the normal mean was therefore not large, and only amounted to an excess of 0.024". The excess was largest in North Behar, where it amounted to 0.03", while it was only about 0.02" in Chutia Nagpur, South Behar and South-West Bengal.

Temperature.—As has before been indicated, temperature has varied very largely during the month, and for the first-half it was very decidedly lower than usual, when a rapid increase took place, and during the latter part of the month temperature became very high, and over large districts was decidedly above the normal. The causes which have brought about these changes have already been described, so they need not again be alluded to. For the first week the mean temperature of the province was 3° below the normal, the defect being most noticeable in South Behar, where it was 4.3°. In the second week weather was again very cool, and the average mean temperature of the province was almost 4° below the normal for the period, while in South Behar it was 6° below the normal, and in South-West Bengal it was 5° below it. A rapid change took place, temperatures increased largely, and for the third week the mean temperature of the province was about two-tenths of a degree in excess of the normal, Chutia Nagpur and South Behar showing the largest excess, amounting to about 1°, while in Orissa there was a defect of almost corresponding amount. Finally, in the last week the excess in the mean temperature had increased to about 1°, the excess being largest in South-West and East Bengal and in Chutia Nagpur. For the whole month the mean temperature has thus been somewhat below the normal, the defect being equal to about 1.5°, but the defect was actually largest in Behar, where it equalled 2.3°. The following tables, which give the temperature data for eight representative stations, will show clearly the great differences of

temperature which have existed during these four weeks, and the manner in which the variations have been connected with the day and night temperatures and also with the mean temperatures :—

Some very high maximum temperatures have been reported during the month, the highest reported have been 109.1° at Raneegunge on the 28th, and 110° at Chybassa on the same day; but in addition temperatures of above 100° have occurred in all districts except East Bengal.

The following represent the highest maximum temperatures in all districts except those of 109.1° and 110° just recorded :—

District.	Station.	Temperature.	Date.
Orissa	Cuttack	108.4°	23rd.
South-West Bengal ...	Bankoora	107.1°	28th.
East Bengal	Burrisal	95.8°	20th.
	Commilla	95.3°	24th & 26th.
North Bengal	Rampur Beaulah	102.4°	24th.
North Behar	Chupra	104.5°	27th.
South Behar	Gya	107.6°	26th.
Chutia Nagpur	Hazaribagh	105.0°	30th.
	Ranchi	105.0°	28th.

Rainfall—The periods of rainfall during April have already been discussed, and it will have been seen that, except in North and parts of East Bengal, where rainfall has been much more frequent than in other divisions, the periods of rainfall over the remainder of the province may be said to have been three only, the first on the 8th and 9th of the month, the second on the 14th and 15th, and the third from the 28th to the 30th. Rainfall for the whole month has been in slight but decided excess in North Bengal, Behar, and Chutia Nagpur, while it has been in slight but decided defect in Orissa and South-West Bengal. Finally, in East Bengal rainfall has been in very large defect. Thus in South Behar for the month there has been an average fall of 0.75 inch, the normal fall for April being 0.40 inch, the actual has therefore equalled 187 per cent. of the normal. In North Bengal 2.67 inches of rain have been received against a normal of 2.34 inches, and the actual fall expressed as a percentage is 114. In Chutia Nagpur there has been an average fall of 0.50 inch, the normal for April being 0.45 inch. The percentage of the normal in Chutia Nagpur is therefore 111. In North Behar the actual average fall has been 0.76 inch, against the normal 0.70 inch, which gives a percentage of 108. In other districts the falls are in defect; Orissa has recorded an average fall of 0.82 inch, the normal fall being 1.37 inches, the actual fall has therefore been about 60 per cent. of the normal. South-West Bengal has received 1.18 inches, the normal being 2.05 inches and the percentage is therefore 57; while in East Bengal a fall of only 1.32 inches is recorded, while the normal fall is 3.87 inches, and this division has therefore only received 34 per cent. of the normal quantity. Considering that these districts have each an equal value in the calculation, it may be said that the average fall over the province for April has been equal to 93 per cent. of the normal amount.

As is usual, however, in the rainfall of April, the distribution is very irregular, and there are some districts in the above divisions which show a much greater deviation than is indicated in the above numbers. Thus in Orissa the district of False Point has only received about a sixth of the normal fall. In South-West Bengal the districts of Bankoora and Raniganj have received falls in excess of the normal, though situated in a division which has generally received a decided defect. On the other hand the Krishnagur district has received less than half its normal fall, and Jessore district only about one-eighth of it. In East Bengal the Chittagong district has received practically no rain, Burrisal district only a quarter of the normal fall, and Noakhally district about a tenth. In North Bengal the Bogra district has only received about an eighth of the normal fall, Serajunge, Rampore Beaulah and Dinapore districts about one-half the normal fall, while there have been

centres of large excess falls in the Rungpore, Julpigoree and Darjeeling districts. In the districts of Behar there are no very large variations calling for comment, but in Chutia Nagpur, while Hazaribagh and Ranchi districts have received an excess fall, Chybassa is in large defect, having only received about a quarter of the normal fall.

The following table gives the summary of the temperature and rainfall data of each of the seven Meteorological Divisions of the Province for the month of April 1887 :—

CALCUTTA, the 10th May 1887.

**SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 6TH
MAY 1887.**

At the close of the previous week weather conditions over Central and South-West Bengal were a little disturbed, and small local storms with rain were numerous in these districts on Friday the 29th. There was a considerable increase in pressure on the 30th, but there was still a depression over parts of South Behar and Chutia Nagpur, and apparently over the Sonthal Pergunnahs, which distinctly modified the wind systems over the province, and winds were cyclonic in direction round the low pressure area. Strong southerly winds were blowing in the coast districts in Bengal, and these were continued as south-easterly and easterly winds over Central Bengal and Behar, causing the air to be unusually damp in the latter district. With the continuance of these disturbed conditions local storms with rain were again frequent over parts of South-West Bengal and in the districts near the hills of North Bengal, while all the stations in Assam from which reports are received (three only) also reported rain. On the 1st of May the pressure changes over the whole province were decidedly variable, showing that the disturbed conditions still obtained; the southerly winds blowing at the head of the Bay, however, fell off in force, though the main wind direction over the province remained south-easterly. On this day again local storms with rain were numerous in South-West Bengal, North Bengal and North Behar, while a few showers were reported from South Behar. On the 1st also rain was registered at the three reporting stations in Assam. On the 2nd of May the pressure variations over the province became less irregular, though pressure fell very decidedly, and the area of disturbance was practically confined to parts of North and East Bengal, and to the Sonthal Pergunnahs district, where moderate rain fell. Pressure continued to fall on the 3rd, and the changes were again irregular, so that disturbances were again reported in all districts except Orissa, Behar, and parts of North Bengal. A rapid reaction set in on the 4th, and pressure increased largely and became more nearly normal, though there was still an area of comparatively low pressure in the western parts of South Behar and Chutia Nagpur, and winds continued strongly easterly over the greater part of the province. On this day rain was again reported from all districts except Behar and parts of North and East Bengal. On the 4th of May Silchar reported 1.15 inches of rain. The rapid rise of pressure continued on the 5th, and the effect was to considerably decrease the differences of pressure over the province, and to raise the pressure rather largely above the normal, but the changes had little effect on the character of the winds blowing over the province, but on this day rainfall practically ceased everywhere. On the 6th pressure again commenced to fall, and winds became rather more southerly than they had been, and on this day also rainfall was practically absent.

It will thus be seen that the meteorological conditions over the province were considerably disturbed for the first five days of the week, and that local storms or nor'-westers with rain have been rather numerous during that period, particularly in South-West Bengal, East Bengal, North Bengal, and Chutia Nagpur, but the majority of these storms do not appear to have been of a very violent character, and the rainfall accompanying them has in most instances been light. Some of the reports, however, which have been received, appear to show that a few of them have been very violent, and also from the logs of some vessels which have recently been received, it would appear that some of them had advanced to a considerable distance from the land, and to have given very strong winds at sea. In one instance even hail was reported to have fallen at sea during one of these storms.

Pressure—Variations, as previously described, have been rather large during the week, and also for a certain period decidedly irregular. The mean pressure for the week has not, however, shown such large variations from the normal as might have been expected, but the small variations at neighbouring stations are in several instances of opposite character. The average mean variations for the week are as follow:—Pressure was in excess by 0.015" in South-West Bengal, and in North Behar by 0.008"; in all other divisions it was in defect. In Orissa and South Behar the defect was 0.018", in North Bengal 0.014", in Chutia Nagpur 0.009", in Assam 0.006", and in East Bengal 0.002". It will thus be seen that the variations of the mean from the normal pressure are in all cases small, and it may be said that the pressure for the whole province, taking the above divisions to have an equal value in the calculation, has been below the normal of the week by only 0.005".

Temperature—Was generally above the average at the commencement of the week, but with the occurrence of numerous local storms with rain it fell considerably, but irregularly. At the close of the week, owing to the cessation of rainfall, it had risen again very rapidly, and was generally rather largely above the normal in all districts except Orissa and Chutia Nagpur. The mean temperature for the week has thus been nearly normal in North Behar, and from 1° to 2° below it in Orissa, South-West Bengal, Chutia Nagpur and South Behar, while it has been about the same amount above the normal in East Bengal, North Bengal and Assam. The highest maximum temperatures reported during the week have been 108.3° at Chyhaasa on the 2nd, and 107.9° at Cuttack also on the 2nd.

Humidity.—The principal feature of interest in this respect has been the unusually high humidity in Behar and at the western stations generally, due to the strong easterly winds which have prevailed almost throughout the week over the greater part of the province.

Rainfall—In Bengal has been brought about as before described by a succession of local storms, the largest amounts having fallen in South-West Bengal, which has received an average

of 1.48 inches ; Orissa has received 1.01 inches, East Bengal an average of 0.88 inch, North Bengal 0.87 inch, Chutia Nagpur 0.60 inch, North Behar 0.34 inch and South Behar 0.24 inch.

For the district of Assam it is impossible to give any average statements, as reports are only received from three stations. The rainfall at these three stations for the week has been at Sibsagar 0.91 inch, at Dhubri 1.01 inches and at Silchar 1.80 inch.

In Bengal the fall for the week has been slightly above the normal amount in Orissa, South-West Bengal and Chutia Nagpur ; it has been slightly below the normal in South Behar, and largely below the normal in East and North Bengal and North Behar.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 6th of May 1887 :—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.2° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 17th May 1887.—The following orders of the Board of Trade are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

Consecutive office No. 320—Departmental 1073—Surveyors 96.

Board of Trade, Marine Department, February 1887.

INSTRUCTIONS TO SURVEYORS.

Distress Signals.

THE Board of Trade are advised that Pyrotechnic Signals of Distress, which have been kept for a lengthened period, are liable to seriously deteriorate in quality, and are consequently not to be relied on when required for use. The Surveyors are therefore informed that in future no Pyrotechnic Signals of Distress, which are more than two years old, are to be passed for use on board Passenger and Emigrant ships. In the case of Pyrotechnic Signals which are less than twelve months old, the Surveyors should test by firing at least one sample of each description of signal supplied, but of signals between one and two years old double this number should be fired.

Any signals showing signs of dampness, careless manufacture, or unusual wear and tear should be regarded with suspicion, and should be dealt with in such a way as the Surveyor may think most expedient.

To enable the Surveyors to carry the foregoing regulations into effect, all Pyrotechnic Signals must in future be marked with the date of manufacture. The marking must be distinct, and must not be effected by means of an adhesive label. The requirements respecting the marking of signals will come into force on the 1st May 1887, and ship-owners and signal-makers should at once be informed that, on and after that date, no new Pyrotechnic Signals will be accepted unless this regulation is complied with, and that, on or before the 1st of May 1888, all the Pyrotechnic Signals which may have been already supplied must be replaced by new ones bearing the date of manufacture.

Copies of this circular should be distributed among the owners of Passenger and Emigrant ships, and the makers of Pyrotechnic Distress Signals in the different districts.

With reference to Holmes' Signals, Surveyors are informed that these signals, when kept on the rail ready for use, or otherwise exposed to the action of the weather, very quickly deteriorate, and are not to be relied on for more than 12 months.

This also applies to Holmes' Signals that have been kept in damp lockers, wheel-houses, or other places where they are exposed to moisture.

On the other hand, when efficiently taken care of, they have been known to remain good for a number of years. Surveyors should therefore examine them carefully. They should be marked with the date of manufacture in the same way as other Pyrotechnic signals, but must be dealt with as the circumstance of each case requires.

Secretary.

THOMAS GRAY,
Asst. Secretary.

BRAHMA MOHAN MALLIK,
Inspector of Schools, Western Circle.

HUGLI, the 30th April 1887.

Government Engineering College, Seebpore.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 25th May 1887. The Session begins on Monday the 6th June 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F.A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June 1887. They must send in their applications before 25th May 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight.

Further particulars will be supplied on application to the Principal.

S. F. DOWNING,
Principal, Govt. Engineering College.

Beerbhoom Collectorate, the 25th April 1887.

F. H. SKRINE, Offg. Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bazitpur-Dalsingserai section of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale on the 5th day of July 1887 at office of Collector of Durbhunga. The purchasers of the several plots of land will be subject to the following conditions --

1. The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.
2. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
3. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the 1st succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
4. The balance of purchase-money due under the 3rd condition may be paid either to the Collector or into the Government treasury, Durbhunga.
5. The plots of land will be sold revenue-free to the highest bidder.
6. The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

H. S. BEADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue-free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Calcutta, the 11th May 1887.

RESOLUTION.

READ the undermentioned papers regarding the foundation of a Free Sanskrit Tol by Srimati Arnakali Devi of Kasimbazar, in the Moorshedabad district :—

Endorsement from the Commissioner of the Presidency Division, No. 70M—G, dated 8th March 1887, and its annexure.

Endorsement from the Director of Public Instruction, No. 2876, dated 26th April 1887, and its annexures.

In a letter dated 16th February 1887 Srimati Arnakali Devi of Kasimbazar, in the district of Moorshedabad, informed the Magistrate of the district that, in commemoration of the Jubilee year of the reign of Her Majesty the Queen-Empress, she intended—

- (1) To found at Berhampore a free Sanskrit Tol, to be named the Victoria Free Sanskrit Tol, for the study of Sanskrit literature, philosophy and Dharma shastras, and to provide deserving students of the tol with free board at an annual cost not exceeding Rs. 2,000, with a Sanskrit library, to be attached to the institution and to be open to the public.

- (2) To give a donation of Rs. 500 to the District Committee for any permanent work of public utility which the Committee might think proper to undertake for the commemoration of Her Majesty's Jubilee.
- (3) To distribute food and clothing to destitute persons in her neighbourhood.

On this letter being forwarded to Government by the Commissioner of the Presidency Division, the Lieutenant-Governor called for a report from the Director of Public Instruction with regard to the promised foundation of a free Sanskrit *Tol*.

2. The Director of Public Instruction has now forwarded to Government a letter from the Deputy Inspector of Schools, Moorshedabad, reporting that the *tol* founded by Srimati Arnakali Devi was opened on the 4th March last by the Commissioner of the division, and that it is in working order. The *tol* has been called the "Victoria Free Sanskrit Tol." The Director believes that the institution will materially help in promoting Sanskrit learning in the Moorshedabad district. The Lieutenant-Governor has pleasure in tendering his thanks to Srimati Arnakali Devi for her liberal acts on this occasion.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Commissioner of the Presidency Division for information and communication to Srimati Arnakali Devi of Kasimbazar.

Ordered also that a copy of the resolution be forwarded to the Director of Public Instruction for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

REPORT OF THE CHEMICAL EXAMINER TO GOVERNMENT FOR THE YEAR 1886.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 16th May 1887.

RESOLUTION.

READ—

A letter from the Inspector-General of Civil Hospitals, No. 2624, dated the 11th April 1887, forwarding the report of the Chemical Examiner for the year 1886.

The Report for 1885 and the Resolution recorded on it.

The number of analyses performed during the year under report was 2,286 compared with 2,343 in 1885. The following table shows the general nature of the work done during the year compared with that of the previous year:—

	1885.	1886.
<i>Medico-legal—</i>		
Human viscera tested for poison	234	266
Animal ditto ditto	193	157

„ Telegraph Store ditto	24
„ Commissariat ditto	44	38
„ Army Clothing ditto, Alipore	48
„ Other departments	53	51
Total	2,343	2,286

There was a decrease of 57 cases in the number of analyses performed during the year under review. Besides the analytical work, 19 opinions were submitted on various technical questions to departments under the Imperial and Bengal Governments. The diminution in the analytical work occurred chiefly under the following heads:—“Animal viscera tested for poison,” “Substances suspected to be, or to contain, poison, including cattle poison,” “Articles tested for blood stains,” and examinations for the “Small Arms Ammunition Factory, Dum-Dum.” On the other hand, there was an increase, chiefly under the following heads:—“Human viscera tested for poison,” “Spirit determinations for the Collector of Customs,” “Potable waters,” “Ghee,” “Petroleum” and “Spirits for deleterious adulterations.”

2. The first paragraph shows the work done; the result of that work is very clearly shown in the tables submitted with the report. The following brief summary shows the result:—The number of medico-legal examinations was 1,250 as against 1,437 in 1885. The most important examinations were, as usual, those for detecting poison in human viscera. In 18 per cent. of the cases arsenic, and in 19·5 of the cases opium, was detected; all other poisons together only accounted for 4·9 per cent. of the cases, bringing the number in which poison was discovered up to 42·5 per cent. of the whole. The experience of the Chemical Examiner shows that opium is generally used for

suicidal, and arsenic for homicidal, purposes. The large increase under the head "Petroleum and inflammable oils" was due to the introduction of the Petroleum Act of 1886, although this has been in force only for a few months; all the samples tested flashed above the Government standard. Thirty-one specimens of country liquor were examined for fusel oil in accordance with the recommendations of the Excise Commission. A large number of spirit and wine analyses were undertaken at the request of the Commissariat Department. The proposal to have all wines and liquors supplied by the Commissariat Department first submitted for report to the Chemical Examiner's Department before issue, should be referred separately for submission to the Government of India in the Military Department. Amongst the articles tested for purity and quality were 63 samples of cloth examined for the Ordnance Department to discover why the tent cloth wore in holes and became unserviceable after short use; and examinations of locally manufactured cloth, to discover which variety was best suited for the use of troops.

3. More important at the present time than the analyses summarised above were those made in connection with the Ghee Adulteration Act. These showed that out of 17 samples from the mofussil including the districts of 24-Pergunnahs and Howrah, not one was adulterated; while out of 13 samples from the Commissariat 11 had to be condemned. This result is accounted for by the Chemical Examiner on the ground that mohwa oil and cocoanut oil are almost the only adulterants procurable in the mofussil, and that the addition of any considerable quantity of these gives a decided taste to the ghee, while in large towns lard and animal fat are procurable, and a judicious admixture of fat with poppy or mohwa oil and butter fat yields a good imitation ghee. Samples submitted by the Calcutta Police were not examined, as there is a Health Officer attached to the Municipality.

4. The investigation of the poisonous properties of indigenous plants was continued. Only in one case, that of Arum, Bish Kachoo, are the results given. The symptoms are not given, but the suggestion that the effects may be due to the mechanical action of pointed crystals in the tubers and leaves of the plant is a very interesting one. The detailed report is awaited.

5. Attention is drawn to the facts that arsenic was detected in 77 per cent. this year, as against 62.6 per cent. in 1885, of the substances examined because they were suspected to be intended for cattle-poisoning, while it was detected in 75.79 per cent. of cattle viscera sent for examination as against 73.5 per cent. in 1885 and 67.8 per cent. in 1884. The cases in which arsenic was found in human viscera were in 1884, 1885 and 1886, 22, 36, and 48 respectively; and it is pointed out that in the ten years preceding 1885 only once has the number in that year been exceeded. From a consideration of these figures, the necessity of legislation to prevent the sale of arsenic is again urged. It is observed, however, in the cases of suspected cattle poisons and viscera of cattle, that though the *percentage* of cases in which arsenic was detected was in 1886 in each case greater than in 1885, the actual number of cases where arsenic was detected was in each case less. In the case of viscera of cattle, 109 cases out of 157 examined showed traces of arsenic, as against 142 cases out of 193 examined in 1885. So in the case of suspected cattle poisons in 1886, 110 substances out of 144 showed arsenic against 176 out of 281 in 1885. It is also to be remembered that the necessity for exercising discrimination in sending such cases for examination has more than once been impressed upon Civil Medical Officers, and the result to be expected from increased discrimination is that out of a smaller number of cases submitted for examination, a larger percentage should be found to show traces of poison. The actual increase in the number of cases in which arsenic was detected in human viscera may, to some extent, be due to the rule directing that bodies in police cases should invariably be sent into the district headquarters for *post-mortem* examination by the Civil Surgeon, except when, by reason of the distance or other valid cause, there was a danger of the subject not arriving in a fit state for examination. Owing to this a far larger number of the *post-mortem* examinations have, during the last three years, been conducted by officers of high qualifications. It might be expected therefore that arsenic should be found in some cases, where, under the system formerly in force, its presence would not have been suspected.

6. The remarks of Dr. Warden and of the Inspector-General of Civil Hospitals on the use of Norton's tube wells as instruments for ascertaining the quality of water likely to be yielded before tanks are excavated or permanent wells are sunk, will be communicated to Municipalities and District Boards. Dr. Warden's experiments with such tubes appear to promise good results if they are carefully worked.

7. The thanks of the Lieutenant-Governor are due to Dr. Warden for the full and interesting report he has submitted, and for the good work done by him during the year. The Lieutenant-Governor also notices with satisfaction the high terms in which Dr. Warden speaks of the work done by Assistant Surgeon Chuni Lall Bose and Baboo Ram Chandra Datta.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

PILGRIMAGE TO MEOGA

THE following Resolution by the Government of India, in the Home Department, is published for general information:—

F. B. PEACOCK,

Chief Secy. to the Govt. of Bengal.

No. 2—102-14.

Home Department Resolution No. $\frac{1}{21-33}$, dated the 21st January 1886, on the subject of the arrangements made with the firm of Messrs. Thomas Cook & Son for the conveyance of pilgrims from India to Jeddah and back.

RESOLUTION.

IN paragraph 3 of the Resolution cited in the preamble, it was announced that the Government of India contemplated the appointment of Messrs. Thomas Cook & Son to be pilgrim agents for the whole of India, and the outlines of the scheme then adopted for the improvement of arrangements for the conveyance of pilgrims to and from the Hedjaz were sketched. The Government of India has recently been in personal communication with Mr. F. H. Cook, the representative of the firm of Messrs. Thomas Cook & Son, who has come to India with the object of carrying the proposed arrangements into effect. The Governor-General in Council is now pleased to notify, for the information of the public, the arrangements which have been completed with that firm for the better ordering of the pilgrim traffic.

2. The understanding upon which Messrs. Thomas Cook & Son have been appointed pilgrim agents is that the arrangements shall last for three years from the beginning of 1887, and shall be terminable at the end of that period at the option of either the Government or Messrs. Cook & Son. In the event of Government withdrawing after three years from the arrangement, Messrs. Cook & Son will be at liberty to continue it as a private enterprise. It is, of course, understood that, though Government gives its countenance and assistance to Messrs. Cook & Son's enterprise, it has no desire to constitute a monopoly in favour of the firm. As, however, the firm engages to convey pilgrims to Jeddah at a fair charge, to protect them while on the journey from extortion and ill-treatment, and to provide them with such comforts and facilities in the way of supplies of food and banking arrangements as may be found desirable and practicable, the Government is satisfied that pilgrims will do well to take advantage of the firm's arrangement. The charges to pilgrims will consist of (1) railway fare; (2) steamship fare; (3) landing charge at Jeddah. The railway fares will be fixed sums; and as they will follow the Railway tariffs, the amount will depend upon the distance of the place of departure from Bombay. The steamship fare will also be a fixed sum, which has been settled for the current season by the Government of India on the representation of Mr. F. H. Cook and the advice of the Government of Bombay as follows:—

				Rs.
Single tickets from Bombay to Jeddah, 1st class	...			60
Ditto ditto 2nd „	...			40
Ditto ditto 3rd „	...			30
Return tickets from Bombay to Jeddah and back, 1st class	...			90
Ditto ditto 2nd „	...			60
Ditto ditto 3rd „	...			45

Tickets, which will include the railway and steamer fares either to Jeddah or to Jeddah and back, and passports [which can be *viséd* by Messrs. Cook & Son at Bombay] will be kept for sale at the office of the Collector or Deputy Commissioner) of every district in India, who will be supplied by the firm through the Local Governments and Administrations with a requisite supply of tickets and passports for issue. A register will be kept up in the office of issue in the form appended to this Resolution in order to facilitate the refund of the cost of tickets in cases in which they are not availed of. A copy of the

entries in the first three columns of this register will be sent monthly by each district officer to Messrs. Thomas Cook & Son at Bombay, and the amount realized by the sale of tickets, which may in the meantime be deposited in the Treasury, will at the same time be remitted to Messrs. Thomas Cook & Son by means of a transfer receipt issued at par.

3. It has been arranged with Messrs. Thomas Cook & Son that the cost of tickets shall be refunded to the purchasers, or in case of their death to their heirs, should the holders of them be unable to start on the pilgrimage owing to illness or any other cause. Should a pilgrim die on the pilgrimage while under the charge of Messrs. Cook & Son's agents, the unused portion of the steamer ticket held by him will be recovered by such agents, and its value refunded by the firm through the Treasury and the District Officer to the pilgrim's heirs. If a pilgrim does not wish to return to India, he may, by delivering the unused portion of his steamer ticket to Messrs. Cook & Son's agent at Jeddah, obtain a refund of the price of such unused portion. The question of refunding the value of the unused portion of tickets for the railway journey is still under discussion; but Messrs. Thomas Cook & Son hope to be able to establish a system by which refunds of the price of unused railway tickets may, in the circumstances alluded to above, be also introduced.

4. Messrs. Cook & Son have engaged to send a Muhammadan employé of the firm on each steamer to see that the pilgrims are properly taken care of; and a Muhammadan doctor will accompany each steamer. The firm will be prepared to send at ten days' notice from any district a Muhammadan to accompany any party of pilgrims to Bombay, provided that the party consists of at least 30 persons. Arrangements have been made to enable pilgrims to deposit cash at a small charge at Messrs. Cook & Son's agency at Bombay, and to draw it at the firm's agency at Jeddah; and it is in contemplation to make provision whereby pilgrims will be able with full regard to religious customs to purchase food on board steamer at moderate rates.

5. Messrs. Thomas Cook & Son have agreed to submit their accounts for audit during the years for which Government has granted to them a guarantee against actual loss in the execution of these arrangements up to £2,000 for the first year and £1,000 for each of the two following years. It has been arranged that the audit of accounts shall be undertaken in the office of the Accountant-General, Bombay; and the Government of Bombay is requested to issue the necessary instructions to that officer, who may, if necessary, decide under its instructions, in what form the accounts of the firm should be kept. The result of the audit will be communicated through the Government of Bombay to the Government of India.

6. Messrs. Cook & Son have prepared a prospectus which has been approved by the Government of India regarding the arrangements which are summarised above. Copies of this prospectus are herewith forwarded in order that they may be circulated as widely as possible. Local Governments and Administrations are requested to notify to this office, with as little delay as practicable, the number of additional copies that may be required.

7. The Governor-General in Council now leaves it to the Local Governments and Administrations to issue the subsidiary orders necessary to ensure that every facility is afforded to pilgrims who wish to provide themselves with tickets and passports. He also desires that district officers should be instructed to give the widest possible publicity to the advantages which will be secured by the purchase of return tickets. In fine, no effort should be spared to make known and explain the objects which His Excellency in Council has in view, and to facilitate the issue of tickets and passports in order that a full and fair trial may be given to the scheme as now made public.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations, and to the Foreign and Financial Departments, for information and guidance, and for the issue of such subsidiary orders as may be necessary.

Ordered also that a copy of this Resolution be published in the Supplement to the *Gazette of India*.

[True Extract.]

A. P. MacDONNELL,

Secretary to the Government of India.

THE Government of India being desirous of taking measures to alleviate the hardships and reduce the mortality during the pilgrimage to Mecca of its own Muhammadan subjects, and of those of neighbouring countries who pass through India, has experimentally, and on certain terms and subject to certain conditions, accepted the services of the firm of Messrs. Thomas Cook & Son as agents to secure the safety and comfort of pilgrims on the land journey and voyage.

It is to be clearly understood that pilgrims can make arrangements for the pilgrimage to Mecca in any manner that they please; those who employ the services of Messrs. T. Cook & Son will enjoy the advantages set forth in the following notification prepared by that firm, which is published for the information of all concerned:—

1. Tickets will be kept and sold at the office of the Collector or Deputy Commissioner of every district.
2. The price of these tickets will include railway and steamer fares of pilgrims from the place of departure to Jeddah.
3. The full fare will be charged on single tickets to Jeddah; but upon return tickets which are purchased before starting, a reduction of one-fourth of the double fare between Bombay and Jeddah will be allowed. There will be no reduction on the railway fares.
4. By taking return tickets beforehand, pilgrims will not only save money, but will have to carry less cash with them, thus avoiding danger of loss on the journey.
5. Each purchaser will receive a railway ticket to Bombay, a steamer tickets from Bombay to Jeddah, and a landing ticket for the small boats at Jeddah; and each of these tickets will be collected at each of these places separately by or under supervision of the agents of the firm.
6. Intending purchasers of tickets are recommended to apply for them about a month beforehand. No risk is run by purchasing tickets, beforehand, as the cost of them will be refunded to the purchaser, or in case of his death to his heirs, if from illness or any other reason the holder is unable to start.
7. Should a pilgrim die on pilgrimage while under the charge of Messrs. Cook & Son's agents, the unused portion of the steamer ticket held by him will be recovered by such agents, and its value refunded by the firm through the district officer to the pilgrim's heirs. If a pilgrim does not wish to return to India, he may, by delivering the unused portion of his steamer ticket to Messrs. Cook & Son's agents at Jeddah, obtain a refund of the price of such unused portion.
8. The return ticket for one year's *haj* is available for a second year if pilgrims prefer to return after the second year's *haj*.
9. Arrangements for female attendants and for the privacy of *purdah-nashin* women on the steamers will be made as far as practicable.
10. Dates of departure of pilgrim steamers will be fixed and notified beforehand at the office of the Collector or Deputy Commissioner of the district, to save needless delay and expenditure to pilgrims at Bombay.
11. Seaworthy and properly found and equipped steamers will be employed with a view of ensuring the safety and comfort of the pilgrims.
12. The pilgrims will be allotted sufficient space to enable them to sleep and sit with comfort.
13. A Muhammadan employé of the firm will accompany each steamer to see that the pilgrims are properly taken care of and are not subjected to unnecessary hardships.
14. The firm will have agents at Jeddah and at Bombay to render every assistance possible to pilgrims.
15. Pilgrims will be at liberty to deposit cash at Messrs. Cook & Son's agency at Bombay, and draw it at the firm's agency at Jeddah at a small charge.

16. Pilgrims will also be able to deposit with Messrs Cook & Son's agency at Jeddah cash or valuables until their return from Mecca on payment of a small charge.
17. A Muhammadan doctor (*hakim*), with medicines, will accompany each steamer.
18. Any alterations that may be made in the rate of fares for tickets will be ascertainable at the office of the Collector or Deputy Commissioner of the district.
19. By these arrangements pilgrims will escape the extortions which have been frequently practised on them in Bombay.
20. The firm will be prepared to send at ten days' notice from any district a Muhammadan to accompany any party of pilgrims to Bombay, provided that the party consists of at least 30 persons.
21. Hitherto passports issued by district officers had to be *viséd* at Bombay by the Commissioner of Police, whose office is at some distance from the place where pilgrims reside in Bombay. Under present arrangements passports issued at the office of the Collector or Deputy Commissioner of the district simultaneously with the tickets can be *viséd* at the office of Messrs. T. Cook & Son, which is close to the pilgrims' resting place. Passports issued by Messrs. T. Cook & Son can be obtained either at the office of the Collector or Deputy Commissioner of the district where the ticket is purchased, or at the office of the firm in Bombay.
22. The price of single tickets for the present season is as follows; but this is subject to revision in future seasons:—

					Rs.
1st class	60
2nd „	40
3rd „	30

The above includes the steamer fare alone from Bombay to Jeddah. Railway fares and landing charges are not included in it.

23. The price of return tickets from Bombay to Jeddah and back is as follows:—

					Rs.
1st class	90
2nd „	60
3rd „	45

24. Arrangements for supplies of food and for cooking on the steamers are receiving the attention of the firm.
25. There will be no interference with the religious or social observances of the pilgrims. All persons employed in this part of the business of the firm will be Muhammadans of respectable character, and the wishes of the majority of the Muhammadans will, as far as possible, be carried out when practicable.
26. Tickets will be obtainable for the present year's *haj* at the office of the Collector or Deputy Commissioner of each district on or after this date.
27. The firm have appointed a Muhammadan Superintendent, who will travel constantly amongst the Muhammadan committees and explain all details connected with the arrangements, and will visit the various Mecca committees formed by the Muhammadan Gentlemen at each centre after the meetings held all over India by Messrs. F. H. Cook, R. F. Saunders, and Salamoolah Khan during the past cold weather.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, GOVT. OF INDIA ;
Calcutta, the 16th May 1887.

**SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 13TH
MAY 1887.**

At the close of the previous week a rapid rise of pressure had taken place over the province, by which it had been raised rather largely above the normal, and by which the differences of pressure over the province had been rendered very small. The high barometer had been accompanied by fine weather, and for the last two days of the week rainfall was practically absent over the whole province. On Friday, the 6th, however, the high pressure commenced to give way, and a rather rapid fall set in, which continued for several days. In addition to the rapid reduction of pressure which took place on the 7th, the most important feature in the meteorology of this day was the setting in of dry westerly winds over the west of the province, which was accompanied by a considerable reduction in the humidity, and by decrease in the cloud proportion at the western stations; on this day also temperature was decidedly high and considerably above the normal. On the 8th the barometer again fell, and the changes showed that a distinct barometric depression had been formed over the western part of the province. On this day south-westerly winds were reported from Dehree, from Chutia Nagpur and from some of the stations in Orissa and South-West Bengal; in East and North Bengal winds were southerly and south-easterly, while in Behar winds were easterly. A considerable amount of interaction was therefore taking place between more or less opposing wind currents, and this, taken in connection with the barometric depression which had formed, showed that weather conditions had become distinctly unsettled, particularly in the west of the province. The unsettled conditions were immediately followed by rainfall, and on this day rain was reported from several of the stations in South Behar, as well as from some in North Bengal. On the 9th pressure again fell and the area of low pressure extended in a southerly direction, and the wind directions reported showed that there was a distinct tendency to cyclonic circulation round the area of low pressure. The area of disturbance having enlarged and travelled southwards, on this day rain was reported in moderate amounts from all divisions of the province except Behar and part of Chutia Nagpur. On the 10th pressure again fell, and there was still a well marked depression over Orissa and the western part of the province, round which there was a tendency to cyclonic circulation. On this day the area of disturbance appears to have travelled a little southwards, and rainfall was practically absent from Chutia Nagpur, Orissa, Behar, and North Bengal, though rain showers were still very frequent in all other districts. On the 11th pressure rose over the greater part of Bengal, while a rapid fall of pressure took place on the coast of the Circars, showing that probably the area of low pressure had again travelled southwards, and had thus ceased to a great extent to influence Bengal. On this day therefore rain showers were rather less frequent and lighter, and they were received over a smaller area. By these changes the lowest pressure in Bengal had been transferred to the west of the province, and therefore conditions were becoming more normal. On this day, however, general rainfall commenced in Assam, which had hitherto received no rain, and Sibsagar, on the 11th, reported a fall of 2.91 inches. A further fall of pressure, however, took place on the 12th instant, and rainfall became more general again over South-West Bengal, but in other districts rainfall was decidedly local. The Assam stations again reported rain on the 12th. A further very rapid fall of pressure, averaging nearly a tenth of an inch, took place on the 13th, and pressure became very largely below the normal, the defect in some instances equalling two-tenths of an inch. Pressure had in fact fallen to such an extent, and was so very low, that on this day the distribution was similar to that which generally obtains at the commencement of the rainy season, and was quite unlike that which is usual in the middle of May. The rapid changes of pressure which were taking place over the province still showed that conditions were very disturbed, and on this day again rain showers were numerous in South-West Bengal, in the hill districts of North Bengal and in some parts of Orissa. Rain also fell at all the stations in Assam from which reports are received. For the last 4 or 5 days of the week, therefore, it will have been seen conditions were disturbed over a large part of the province, and rain showers have been frequent, though, as a rule, the amounts received daily have been small except in East Bengal. A point of interest in connection with the meteorology of the week has been that in Ceylon, during the latter end of the week, another advance of monsoon winds appeared to be taking place, but it had not progressed very far up the Bay.

Pressure.—As has been stated in the previous general summary, pressure has steadily fallen almost throughout the week, and at its close it was decidedly largely below the normal. At the commencement of the week, however, pressure was above the normal by considerable amounts, so that the mean pressure for the week does not vary so much from the normal as it otherwise would have done. In Orissa the mean pressure for the week has been below the normal by 0.08", in South-West and East Bengal the defect has been about 0.65", in North Bengal, in Chutia Nagpur and Behar the defect has been about 0.07", and in Assam it has been about 0.08". The average defect for the whole province of Bengal and Assam has therefore been about 0.07", while the western parts of the province show, if anything, the largest defects.

Temperature.—At the close of the previous week had risen rather rapidly owing to the cessation of rainfall, and was generally above the normal in all districts except Orissa

and Chutia Nagpur. At the commencement of the present week temperature rose, but, with the occurrence of rainfall, the changes of temperature became rather irregular, depending on the distribution of the local storms and rainfall. The mean temperature of the whole province for the week has, however, been decidedly above the normal in all districts, the average excess in all the districts equalling about 3° , but the excess has to a great extent been confined to Behar, Chutia Nagpur, and Assam. In Assam the temperature for the week has been 5.5° above the normal for the period; in North Behar the excess has been 5.6° , in South Behar 4.7° and in North Bengal 3.5° , while in Chutia Nagpur the excess has been 3.4° . Maximum temperature during the present week has not been quite so high as in the previous week, and the highest maximum temperature recorded has been 107.6° at Gya on the 9th.

Humidity.—The principal feature during the week with regard to this element of meteorology has been the very high humidity in Behar and Chutia Nagpur, due to the unusual preponderance of easterly winds in these districts, which has been a rather conspicuous feature in the meteorology of the province for the greater part of May.

Rainfall.—As has been stated previously, has been fairly general over the whole province on some days during the week, but the greater part of the fall has occurred in local storms, and is therefore irregularly distributed. The districts in Bengal receiving the largest amount of rainfall have been South-West and East Bengal. Thus East Bengal has received an average amount of 4.00 inches falling on 3.3 days in the week, and South-West Bengal has received an average fall of 1.28 inches on 2.3 days. In all other cases the average rainfall has been below one inch. The only district in Bengal which has received a rainfall in excess of the normal for the period is East Bengal, where the average fall has equalled 163 per cent. of the normal fall. The fall in South-West Bengal during the week has nearly equalled the normal, the actual fall being 90 per cent. of the normal for the period. The fall in South Behar has been smaller and only equals 74 per cent. of the normal. In North Bengal the fall has been much smaller, and it only equals 53 per cent. of the normal, while in Orissa and North Behar the actual falls have only been 44 and 34 per cent. respectively of the normal falls. Finally, in Chutia Nagpur rainfall has been almost entirely absent, and only equals 6 per cent. of the normal.

Of the three stations in Assam from which rainfall reports are received—Sibsagar has received 3.41 inches of rain during the week, Silchar 1.86 inches and Dhubri 0.71 inch. These falls have occurred, as stated previously, on the last three days of the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 13th of May 1887:—

MEMORANDUM.

During the week ending 30th April 1887, the returns of the principal Municipalities in Bengal disclosed the following particulars :—

1. That births and deaths were registered in these Municipalities at the rates, respectively, of 15·8 and 24·5 per 1,000 of population as opposed to 18·9 and 28·4 per 1,000, respectively, during the preceding week ending 23rd April, indicating a considerable reduction in the registration of both events.

2. That these events were returned at the highest rates by the following Municipalities :—

<i>Births.</i>			<i>Deaths.</i>

			Puri	...	35·7
			Bhagulpore	...	33·5
			Beaulcah	...	31·5

3. That the mortality from the specific death-causes mentioned in the table appended to this memorandum, compared with similar information for the preceding week, stood as follows :—

				Ratio per mille during the weeks ending—	
				30th April 1887.	23rd April 1887.

Small-pox	·4	·1
Fever	7·9	9·4
Bowel-complaints	2·6	2·6
Injury	·3	·2
Other causes	6·4	6·7

indicating that the death-rates from cholera and fever had diminished very considerably; the other death-causes presenting no noticeable variations.

4. That while the mortality from fever and injury was nowhere above normal, the rest of the diseases mentioned above caused the greatest loss of life in the following Municipalities :—

General remarks on the fluctuation of principal staples carried over the East Indian Railway during 4 weeks ended 26th March 1887.

INCREASES.

Coal and coke.—There was an increase in the upwards and a small decrease in the downwards despatches, resulting in a net increase in the upward traffic which was due to increased demands from Foreign railways.

Cotton.—This was due to the favourable state of the cotton market reported on for February having been continued during March.

Wheat.—This increase is attributable to demand in the Calcutta market.

Rice (husked and unhusked).—Due, as regards upwards, to demands at stations above Dumraon and at stations on the Great Indian Peninsula Railway; the downward despatches were for shipment to Malabar and Madras.

Oil.—This increase was principally in Kerosine oil, and follows a decrease in February 1887.

Railway Material, Foreign.—Due to despatches for the Indian Midland Railway and the Bengal and North-Western Railway.

Salt.—The increase in this commodity is due to the price of salt ex-ship in Calcutta having fallen during the period as compared with the previous month.

Saltpetre.—Due to the Calcutta market being firm.

DECREASES.

Turmeric.—This decrease was principally in the despatches from Patna to the North-Western Railway.

Guany.—This decrease may be ascribed partly to the poor crops in the Punjab this year of wheat for export, and partly to the growing production of bags by the Cawnpore Jute Mills.

Gram and pulses.—Due to limited despatches owing to high prices ruling in the Punjab.

Opium.—Due to Government arrangements of despatch of this drug.

Seeds.—The decrease was principally in linseed, and was due to the crops this year being later than in 1886, and to demand in the Calcutta market being less.

Spices.—Due to a partial failure of the chilli crop in Behar and Tirhoot.

Sugar and jaggree.—The causes were the same as last month, viz., poor crops near stations in the Dinapore district.

Tobacco.—The decrease was chiefly in the despatches from Barh, Patna Ghât, and *via* Mokameh Ghât, due to some extent to a poorer crop than usual.

NOTIFICATION.

The 13th May 1887.—The following Notice to Mariners is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS—(No. 24.)

GULF OF ADEN—SOUTH SHORE.

Lights at Berberch.

With reference to this Office Notice to Mariners, No. 14, of 21st March 1887, further information has been received from the Admiralty and the Director of the Indian Marine that the light should be visible in clear weather from a distance of 11 miles, between the bearings of N. 65° E., through South, and S. 65° W.

Also, that a fixed red light is exhibited from the Custom-house flagstaff. It is visible in clear weather from a distance of about 3 miles, and may be steered for as a leading light when bearing E. by N. $\frac{1}{4}$ N.

Beerbhoom Collectorate, the 25th April 1887.

F. H. SKRINE, Offg. Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bazitpur-Dalsingserai section of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale on the 5th day of July 1887 at office of Collector of Durbhunga. The purchasers of the several plots of land will be subject to the following conditions --

1. The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.
2. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
3. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the 1st succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
4. The balance of purchase-money due under the 3rd condition may be paid either to the Collector or into the Government treasury, Durbhunga.
5. The plots of land will be sold revenue-free to the highest bidder.
6. The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

H. S. BEADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5th.—The plots of land will be sold revenue-free to the highest bidders.

6th.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series: one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

	Without postage.	With postage.

(g) such works without the limits of the port as shall be necessary for the protection of works executed under this Act;

(h) the excavation and maintenance of the Moheshkhali channel or any other navigable channel communicating therewith which may hereafter be placed under the management of the Commissioners by the Local Government by notification;

(i) all such other works and appliances as may, in the opinion of the Commissioners, be necessary for carrying out the provisions of this Act.

17. With the previous sanction of the Local

Power to make port rules.

Government, the Commissioners may make rules consistent with this Act and with the Indian Ports Act, 1875, for any of the following purposes:—

(a) for regulating, declaring and defining the wharves, quays, stages, jetties and piers on and from which goods shall be landed from and shipped in vessels within the port;

(b) for the safe and convenient use of such wharves, quays, stages, jetties, piers and of landing-places, tramways, warehouses, sheds and other works in and adjoining them;

(c) for regulating the reception and removal of goods within and from the premises of the Commissioners, and for declaring the procedure to be followed in taking charge of goods which may have been damaged before landing, or may be alleged to be so damaged;

(d) for the mode of payment of tolls, charges, dues and rates levied under this Act;

(e) for providing water for ships and for licensing and regulating water-boats within the port;

(f) for the removal of wrecks from the port or the river and keeping clean the port, the river, the bank of the river and the works of the Commissioners, and for preventing filth or rubbish being thrown therein or thereon;

(g) for otherwise carrying out the purposes of this Act;

And may from time to time, with the like sanction, repeal or alter such rules.

has been made and completed, with sufficient warehouses, sheds and appliances for landing and shipping, or for landing or

shipping goods from and in sea-going vessels, the Commissioners may, with the previous sanction of the Local Government, by a notification published in three consecutive numbers of the *Calcutta Gazette*, declare that such wharf, quay, stage, jetty or pier is ready for receiving, landing and shipping, or for landing or for shipping, as the case may be, goods from and in sea-going vessels.

From and after such publication the Commissioners may from time to time, when there is room at such wharf, quay, stage, jetty or pier, order to come alongside of such wharf, quay, stage, jetty or pier for the purpose of landing and shipping goods, or for landing or for shipping the same, as the case may be, any sea-going vessel within the port which has not commenced to discharge cargo, or which, being about to take in cargo, has not commenced to take in cargo.

23. When a sufficient number of wharves, quays, stages, jetties, piers, warehouses, sheds and appliances have been provided as aforesaid, the Commissioners may, with the previous sanction of the Local Government, by an order published in three consecutive numbers of the *Calcutta Gazette*, direct that no goods shall be landed or shipped from or in sea-going vessels within the port, save at such wharves, quays, stages, jetties and piers.

The Commissioners may in like manner, with the like sanction, alter, vary, or revoke such order.

24. When any wharf, quay, stage, jetty or pier for receiving, landing or shipping goods from or in vessels, not being sea-going vessels, has been made and completed by the Commissioners, with sufficient warehouses, sheds and appliances in that behalf, the Commissioners may, with the sanction of the Local Government, by an order published in three consecutive numbers of the *Calcutta Gazette*, declare that such wharf, quay, stage, jetty or pier is ready for receiving, landing and shipping goods from or in vessels, not being sea-going vessels, and that, within certain prescribed limits within the port to be specified in such order, it shall not be lawful to land or ship any goods from or in any vessel, not being a sea-going vessel, of any class specified in such order, except at such wharf, quay, stage, jetty or pier, or for any such vessel while within such limits to anchor, fasten or lie within fifty yards of low-water mark without the consent of the Commissioners.

If after such publication any such vessel, while within such limits, so anchors, fastens or lays, the Commissioners may cause the same to be removed out of the said limits.

The Commissioners may in like manner, with the like sanction, alter, vary or revoke any such order.

25. The Commissioners may, by notice in writing, order the master or owner of any vessel to remove such vessel from any wharf, quay, stage, jetty or pier belonging to the Commissioners, and unless such vessel is removed therefrom within thirty-six hours after service of such notice on the master or owner thereof, the Commissioners may charge in respect of such vessel such sum as they think fit not exceeding one hun-

dred rupees for each day of twenty-four hours or portion of such day after the expiry of such thirty-six hours during which such vessel remains at such wharf, quay, stage, jetty or pier.

26. Notwithstanding anything contained in sections twenty-two, twenty-three and twenty-four, the Local Government may, by notification, from time to time permit certain specified vessels or classes of vessels to discharge or ship cargo, or certain specified cargo or classes of cargo, at such part of the port, in such manner, during such period, subject to such payments and on such conditions, as the Local Government may think fit, and otherwise grant exemption from the provisions of such sections.

The Local Government may also, by like notification, cancel or modify any such notification.

27. Whenever any goods are landed by the Commissioners from any vessel, the Commissioners shall, if so required, give to the master of such vessel a receipt in the form set forth, or to the effect set forth, in the second schedule of this Act, and may in any such receipt include all goods landed from such vessel during one day:

Provided that no master or owner of a vessel, from which the goods in respect of which such receipt is given may have been landed, shall be liable for any loss or damage to such goods which may occur after they have been so landed.

28. When the Local Government appoints, under the provisions of any Act for the regulation of duties of customs, any wharf, quay, stage, jetty, pier, warehouse or shed provided under this Act for the use of sea-going vessels to be a wharf for the landing or shipping, or a warehouse for the storing, of goods within the meaning of such Act, the Commissioners shall set apart, maintain and secure on or in such wharf, quay, stage, jetty, pier, warehouse or shed such portion thereof or place therein, or adjoining thereto, for the use of the officers of Customs as the Local Government approves of or appoints in that behalf.

29. Notwithstanding that any wharf, quay, stage, jetty, pier, warehouse or shed or portion thereof, has, under the provisions of the last foregoing section, been set apart for the use of the officers of Customs, all dues, rates, tolls, charges and rents payable under this Act in respect thereof, or for the use thereof, or for the stowage of goods therein, shall be paid and be payable to the Commissioners or to such persons as they may appoint to receive such dues, rates, tolls, charges or rents.

30. Save as is hereinafter provided, no person except the Commissioners shall, after the date on which this Act comes into force, make, erect or fix below high-water mark within the port any wharf, dock, quay, stage, jetty, pier, erection or mooring.

Any matter or thing so made, erected or fixed may be removed by the Commissioners, and the person who has so made, erected or fixed any such matter or thing shall be punished with fine which may extend to one thousand rupees, and with a further fine which may extend to one hundred rupees for every day during which such matter or

thing has been permitted to remain so made, erected or fixed after notice to remove it has been given to him, and shall also be liable to pay all expenses which may have been incurred by the Commissioners in removing such matter or thing.

31. The Commissioners may, by an order in writing, and subject to the conditions contained in the same, permit any person to make, erect or fix below high-water mark within the port any wharf, dock, quay, stage, jetty, pier, erection or mooring.

32. In case any wharf, dock, quay, stage, jetty, pier, erection or mooring is, after the date on which this Act comes into force, without the consent in writing of the Commissioners, made, erected or fixed below high-water mark without the limits for the time being of the port, and thereafter the limits of the port are extended so as to include the place in which such wharf, dock, quay, stage, jetty, pier, erection or mooring has been made, erected or fixed, the Commissioners may remove, fill up, or destroy such wharf, dock, quay, stage, jetty, pier, erection or mooring without making any compensation therefor.

33. The Commissioners shall frame—

(a) A scale of tolls, dues, rates and charges for the landing and shipment of goods from and in sea-going vessels and vessels not being sea-going vessels respectively, at the wharves, quays, stages, jetties and piers, and for the use of such wharves, quays, stages, jetties and piers by such vessels, and for the storing and keeping of any goods stored in any premises belonging to the Commissioners, and for the removal of goods, and for the use of any mooring.

(b) A scale of tolls for the use of the said wharves, quays, moorings, stages, jetties and piers by any such vessels, in case the Commissioners permit the goods to be landed or shipped by others than their own servants.

(c) A scale of charges for any services to be performed by the Commissioners or their servants in respect of any vessels or goods, or for the use of any works or appliances to be provided by the Commissioners.

Such scales shall be submitted to the Local Government, and, after approval or modification by the Local Government, shall be published by the Commissioners in the *Calcutta Gazette*.

The Commissioners may from time to time in like manner, with the like approval or modification and publication, alter such scales.

Every such scale shall be printed in the English and Bengalee languages and characters, and shall be hung up, and kept hung up, in some conspicuous place at the several wharves, quays, stages, jetties, piers, warehouses and sheds.

34. For the amount of all tolls, dues, rates and charges leviable under this Act in respect of any goods, the Commissioners shall have a lien on such goods, and shall be entitled to seize and detain them until such tolls, dues, rates and charges are fully paid.

Tolls, dues, rates and charges in respect of goods to be landed shall become payable immediately on the landing of the goods, and in

respect of goods to be removed from the premises of the Commissioners or to be shipped for export, shall be payable before the goods are removed or shipped.

The lien for such tolls, dues, rates and charges shall have priority over all other liens and claims, except a lien for freight, primage and general average where such lien has been preserved in the manner hereinafter provided, and a lien for money payable to Her Majesty or the Secretary of State for India in Council under any law for the time being in force.

35. If the master or owner of any vessel, at or before the time of landing from such vessel of any goods at any wharf, quay, stage, jetty or pier, gives to the Commissioners notice in writing that such goods are to remain subject to a lien for freight, primage or general average of an amount to be mentioned in such notice, such goods shall continue liable after the landing thereof to such lien.

Such goods shall be retained either in the warehouses and sheds of the Commissioners, or, with the consent of the Chief Officer of Customs, in the public warehouses, at the risk and expense of the owners of the said goods, until the lien is discharged as hereinafter mentioned.

36. Upon the production to any officer appointed by the Commissioners in that behalf of a document purporting to be a receipt for, or a release from, the amount of such lien, executed by the person by or on whose behalf such notice has been given, the Commissioners may permit such goods to be removed without regard to such lien:

Provided that they shall have used reasonable care in respect to the authenticity of such document.

37. Whenever goods have, without any default on the part of the Commissioners, been left for two clear days on or in any wharf or shed belonging to the Commissioners, the Commissioners may cause such goods to be removed either to any warehouse belonging to them, or, with the consent of the Chief Officer of Customs, to the public warehouses; and the removal to and detention in any such warehouse shall be at the risk and expense of the owners of the said goods.

Whenever any goods are so removed, the Commissioners shall give notice to the consignee or owner of such goods of such removal, if his address be known, by letter sent by post to such address or left thereat; and shall also publish by notification and in the local newspaper or newspapers notice of such removal, and shall specify therein the numbers, marks and descriptions of such goods so far as the same appear; and the consignee or owner of such goods, in addition to the expenses of their removal, shall be liable, in case the goods are removed to any warehouse of the Commissioners, to a charge for warehousing for the time during which the goods shall remain in the said warehouse.

If the goods are removed to the public warehouses, the said consignee or owner shall be liable to the charges for warehousing goods in such public warehouses; and the said goods shall remain subject to all liens to which they would

have been liable if they had remained in the possession of the Commissioners, and shall be subject to the power of sale hereinafter given.

38. If the tolls, dues, rates and charges payable to the Commissioners in respect of any goods under this Act are not paid, or if the lien for freight, primage or general average where such notice as aforesaid has been given is not discharged, the Commissioners may, and in the latter event, if required by or on behalf of the person claiming such lien for freight, primage or general average, shall, at the expiration of four months from the time when the goods were placed in their custody, sell by public auction the said goods, or so much thereof as may be necessary to satisfy the amounts hereinafter directed to be paid out of the produce of such sale.

Before making such sale, ten days' notice shall be given by publication thereof in the *Calcutta Gazette* and in the local newspaper or newspapers.

If the address of the owner of the goods has been stated on the manifest of the cargo, or in any of the documents which have come into the hands of the Commissioners, or is otherwise known, notice shall also be given to the owner of the goods by letter delivered at such address or sent by the post; but the title of a *bona fide* purchaser of such goods shall not be invalidated by reason of the omission to send such notice, nor shall any such purchaser be bound to enquire whether such notice has been sent:

Provided that, if such goods are of so perishable a nature as, in the opinion of the officer appointed by the Commissioners in that behalf, to render early or immediate sale necessary or advisable, the Commissioners may, within such period not less than twenty-four hours after the landing of the goods as they think fit, sell by public auction the said goods or such portion of them as aforesaid, in which event such notice, if any, shall be given to the owner of the goods as the urgency of the case admits of.

39. The proceeds of every such sale shall be applied as follows:—

Application of sale proceeds.

- (a) in payment of the expenses of the sale;
- (b) in payment, according to their respective priorities, of the liens and claims excepted in section thirty-two from the priority of the lien of the Commissioners;
- (c) in payment of the tolls, dues, rates and charges of landing, removing, storing or warehousing the goods, and of all other charges due to the Commissioners in respect thereof.

The surplus, if any, shall be paid to the importer, owner or consignee of the goods, or to his agents, on his applying for the same:

Provided that such application is made within one year from the sale, or reason is shown to the satisfaction of the Commissioners why such application was not so made; and in case such application shall not be so made, nor reason shown, such surplus shall be held by the Commissioners upon trust for the purposes of this Act.

40. If the master of any vessel in respect of which any tolls, dues, rates, charges or penalties are payable under this Act, or any rules or orders made in pursuance thereof,

Recovery of tolls and charges by distraint of vessel.

refuses or neglects to pay them or any part of them on demand, the Commissioners may apply to the Collector of Customs of the port, and such Collector shall distrain or arrest such vessel and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount so due to the Commissioners is paid.

And in case any part of the said tolls, dues, rates, charges or penalties, or of the costs of the distress or arrestment, or of the keeping of the same, remains unpaid for the space of five days next after any such distress or arrestment has been so made, the Collector of Customs may cause the vessel or other thing so distrained or arrested to be sold, and, with the proceeds of such sale, shall satisfy such tolls, dues, rates, charges or penalties and costs, including the costs of sale remaining unpaid, rendering the surplus, if any, to the master of such vessel on demand.

41. If the Commissioners give to the officer of Government whose duty it is to grant the port clearance of any vessel a notice stating that an amount therein specified is due in respect of tolls, dues, rates, charges or penalties chargeable under this Act, or any rules or orders made in pursuance thereof, against such vessel, or by the owner or master of such vessel, in respect thereof, or against or in respect of any goods on board such vessel, such officer shall not grant such port clearance until the amount so chargeable has been paid.

42. In case any damage or mischief is done to any wharves, docks, quays, jetties, stages, piers or works constructed or acquired by the Commissioners under this Act by any vessel, through the negligence of the master thereof or of any of the mariners or persons employed therein, any Magistrate of the town of Chittagong may, on the application of the Commissioners, and on declaration by them that payment for such damage or mischief has been refused or has not been made on demand, issue a summons to the master or owner of such vessel, requiring him to attend on a day and at an hour named in the summons to answer touching such damage or mischief.

If at the time appointed in the summons, and whether the person summoned appears or not, it is proved that the alleged damage was done through such negligence as aforesaid, and that the pecuniary amount of the same does not exceed five hundred rupees, the Magistrate may issue his warrant of distress, under which a sufficient portion of the boats, masts, spars, ropes, cables, anchors or stores of the vessel may be seized and sold to cover the expenses of and attending the execution of the distress, and the pecuniary amount of damage as aforesaid, and such amount shall be paid to the Commissioners out of the proceeds of the distress:

Provided that if, at the time of the damage or mischief, the vessel was under the orders of a duly authorized officer belonging to the Pilot Service or the Harbour-Master's or Master-Attendant's Department, the case shall not be cognizable by the Magistrate under this section.

43. The Commissioners shall provide such sums as the Local Government may from time to time re-

"River police."

quire for the establishment and maintenance of police, to be called "River Police," for the protection of the port, the approaches to the port and the river. Such sums shall be a first charge on any property vested in, and on any moneys paid or payable to, the Commissioners under this Act.

The River Police shall be enrolled under Act V of 1861 (*for the Regulation of Police*).

CHAPTER IV.

GENERAL CONTROL OF GOVERNMENT.

44. All acts and proceedings of the Commissioners shall be subject to the approval of the Local Government who may cancel, suspend, or modify any such acts or proceedings, and may grant exemption from the payment of any tolls, charges, dues or rates leviable under this Act.

45. The Local Government may from time to time make rules consistent with this Act as to the cost and class of works which the Commissioners may execute, and the objects to which the receipts of the Commissioners shall be applied.

46. The Local Government may at any time order a survey and examination of any works of the Commissioners under this Act, or the site thereof, and the cost of such survey or examination shall be borne and paid by the Commissioners.

47. If the Commissioners allow any work acquired or constructed by them under this Act to fall into disrepair, or do not complete any work commenced by them or duly estimated for and sanctioned, and do not, after notice given by the Local Government in writing, proceed effectually to repair or complete such work, the Local Government may cause such work to be restored, completed or constructed, and the cost thereof shall be borne and paid by the Commissioners.

48. If at any time the Local Government is satisfied that the purposes intended to be accomplished under this Act have not been, and are not likely to be, properly accomplished by the Commissioners, the Local Government may, by notification, give notice that, unless within six months the Commissioners take measures to the satisfaction of the Local Government for properly accomplishing such purposes, the powers by this Act conferred on the Commissioners will, at the end of such period, be withdrawn and revoked.

On the expiration of the period aforesaid, the Local Government may, if no such measures to its satisfaction have been taken by the Commissioners, declare such powers to be withdrawn or revoked, and may assume such powers; and thereupon such powers shall be withdrawn and revoked accordingly, and all the powers, rights and authorities and all the property vested by this Act in the Commissioners shall thereupon vest in the Local Government.

CHAPTER V.

SUITS BY AND AGAINST THE COMMISSIONERS.

49. No Commissioner shall be personally liable for any contract made or expense incurred by or on behalf of the Commissioners; but the funds from time to time in the hands of the Commissioners shall be liable for, and chargeable with, all contracts made in manner hereinafter provided.

50. Every Commissioner shall be liable for any misapplication of money entrusted to the Commissioners to which he has been a party, or which happens through, or is facilitated by, the neglect of his duty.

51. No suit shall be brought against the Commissioners or any of their officers, or any person acting under their direction, for anything purporting to be done under this Act until the expiration of one month next after notice in writing has been delivered or left at the office of the Commissioners, or at the place of abode of such person, stating the cause of suit and the name and place of abode of the intending plaintiff.

Unless such notice be proved, the Court shall dismiss the suit.

Every such suit shall be commenced within six months next after the accrual of the right to sue, and not afterwards.

If any person to whom any such notice of suit is given before suit is brought tender sufficient amends to the plaintiff, such plaintiff shall not recover.

52. The Commissioners shall not be answerable for any act or default of any master-attendant or harbour-master, or of any pilot, or of any deputy or assistant of any of the officers above mentioned, or of any person acting under the authority or direction of any such officer or assistant, done within the limits of the port; nor for any damage sustained by any vessel in consequence of any defect in any of the moorings, hawsers or other things within the said limits which may be used by such vessel:

Provided that nothing in this section shall protect the Commissioners from a suit in respect of any act done by or under their express order or sanction.

CHAPTER VI.

MEETINGS, ESTABLISHMENT, CONTRACTS AND THE GENERAL CONDUCT OF BUSINESS.

53. The Commissioners may, if they think fit, elect one of their number to be Secretary to the Commissioners.

54. The Commissioners shall have an office where they shall meet for the transaction of business.

55. The Commissioners shall meet for the transaction of business at least once in every month; and for attendance at every such meeting the Commissioners shall receive such fees, subject to such conditions, as the

Local Government may, from time to time prescribe.

56. The Chairman and Vice-Chairman shall, unless prevented by sickness or other reasonable cause, attend all meetings of the Commissioners.

57. The Chairman, or, in the event of his illness or absence from Chittagong, the Vice-Chairman may, whenever he thinks fit, and shall upon a requisition made in writing by not less than three Commissioners, convene a meeting of the Commissioners for the transaction of any special business.

Meetings so convened are special meetings: all other meetings are ordinary meetings.

58. At least three days' notice shall be given of every meeting of the Commissioners, and the notice shall state the nature of the business to be transacted.

59. At all meetings of the Commissioners the business shall be conducted in accordance with the following rules:—

(a) The Chairman, or, in his absence, the Vice-Chairman, shall be President; if both be absent, the Commissioners may elect one of their number to be President.

(b) The President may, with the consent of the meeting, adjourn the meeting from time to time.

(c) At special meetings no business shall be transacted other than the special business for the consideration of which the meeting was specially called: at ordinary meetings any business may be transacted of which due notice has been given.

(d) The quorum necessary for the transaction of business shall be such number, not less than four, as the Commissioners may from time to time prescribe.

(e) All questions which may come before the Commissioners at any meeting shall be decided by a majority of votes. Each Commissioner shall have one vote; and, in case of equality of votes, the President shall have a second or casting vote.

(f) Minutes of the proceedings at all meetings of the Commissioners shall be drawn up after each meeting, and shall be signed by the President and at least one other member who was present at such meeting. A copy of all such minutes shall, as soon as conveniently may be, be transmitted to the Local Government.

60. The Commissioners may appoint one or more of their number to carry out their resolutions, and to enforce any of the rules made under the provisions of this Act, or they may appoint a special officer for such purpose.

61. No proceedings of the Commissioners at any special or ordinary meeting shall be deemed invalid solely by reason of defect of notice or defect of form.

62. The Commissioners shall from time to time prepare and submit to the Local Government a schedule setting forth the number of officers and servants necessary for carrying out the purposes of this Act, and of the salaries, fees and allow-

ances which it is proposed to assign to such officers and servants.

The Local Government may sanction such schedule, or modify and sanction the same.

Every such schedule so sanctioned shall remain in force till some other such schedule has been so prepared and sanctioned.

It shall not be lawful for the Commissioners to employ any officer or servant for any office, or employment not sanctioned in such schedule, nor to pay or allow to any officer or servant any salary, allowance or fee greater than, or beyond, that sanctioned therein.

Nothing in this section applies to artisans, porters or labourers.

63. The Commissioners and the servants of the Commissioners, other than artisans, porters and labourers, shall be deemed to be public servants within the meaning of section twenty-one of the Indian Penal Code.

64. The Commissioners may from time to time make bye-laws, consistent with this Act, for regulating the time and place of their meetings, the conduct of their business, the division of the duties among themselves, the guidance of persons employed by them, the appointment, payment, leave, suspension and removal of their officers and servants mentioned in the schedule last aforesaid, and for other similar matters.

65. Such one of their number as the Commissioners may from time to time, with the previous sanction of the Local Government, appoint in this behalf may, for and on behalf of the Commissioners, enter into any contract whereof the value or amount shall not exceed two hundred rupees, in such manner and form as, according to the law for the time being administered in Chittagong, would bind him if such contract were on his own behalf; but every other contract by or on behalf of the Commissioners shall be in writing and signed by the Chairman or Vice-Chairman and by two other Commissioners, and shall be sealed with the common seal of the Commissioners:

Provided that no contract under or by virtue of which a sum greater than ten thousand rupees may in any event be payable by the Commissioners shall be valid without the sanction in writing of the Local Government.

No contract not executed as in this section provided shall be binding on the Commissioners.

66. No new work, the estimated cost of which exceeds one thousand rupees, shall be commenced by the Commissioners, nor shall any contract be entered into by the Commissioners in respect of any such work, until a plan and estimate thereof have been approved by the Commissioners at a meeting.

In case the estimated cost of such new work exceeds five thousand rupees, it shall not be commenced, nor shall any contract be entered into in respect of it, until such plan and estimate have been submitted to the Local Government and sanctioned by it in an order published in the *Calcutta Gazette*.

And in case the estimated cost of such new work exceeds ten thousand rupees, it shall not be commenced, nor shall any contract be entered into in respect of it, without the previous sanction of the Governor-General in Council.

67. All moneys raised by and paid to the Commissioners under this Act shall be placed in the Chittagong treasury, and no disbursement of such funds or any part thereof shall be made—

(a) in excess of such sum as may in that behalf be from month to month appropriated by the Commissioners at a meeting; or

(b) except under the signature of the Chairman or Vice-Chairman.

68. The Commissioners shall annually, or oftener if directed by the Local Government so to do, submit in such form and at such time as the Local Government may from time to time direct—

(a) statements of their receipts and disbursements under this Act;

(b) reports of all works executed and proceedings taken by them under this Act;

(c) an estimate of their probable receipts for the financial year next following, with proposals for the expenditure of the same.

69. The accounts of the Commissioners shall be examined and audited in such manner as the Local Government may from time to time direct; and, subject to the provisions of this Act, the estimate of probable receipts, and the proposals for expenditure as aforesaid, may on submission be sanctioned by the Local Government, or may be modified or altered and sanctioned.

An abstract of such estimates and proposals shall, when sanctioned, be published in the *Calcutta Gazette*.

CHAPTER VII.

BORROWING POWERS OF THE COMMISSIONERS.

70. The Local Government, acting on behalf of the Secretary of State for India in Council, may, with the previous consent of the Governor-General of India in Council, from time to time advance money to the Commissioners for the general purposes of this Act; or

The Commissioners may, with the previous consent of the Governor-General in Council, from time to time raise money for the said purposes or for the purpose of repaying, either in whole or in part, any monies heretofore or hereafter borrowed, or owing, by the Commissioners:

Provided always that no expenditure shall be charged by the Commissioners to capital except with the express sanction of the Local Government.

71. Whenever the consent of the Governor-General in Council has been obtained to the raising of money by the Commissioners under the last preceding section, the Local Government shall, with the previous consent of the Governor-General in Council, direct and appoint the manner in which money shall be raised.

72. When money is raised by the Commissioners on debentures, the debentures shall be in the form in the third schedule, or in such form as the Commissioners, with the previous consent of the Local Government, shall from time to time determine. The holder of any debenture in the form in the third schedule or in any form duly authorized under this section, may obtain, in exchange therefor, upon such terms as the Commissioners shall from time to time determine, a debenture in any other form so authorized.

Every debenture issued by the Commissioners shall be transferable—

(a) if it be in the form in the third schedule by endorsement; and

(b) if it be in any other form, in such manner as shall be therein expressed.

The right to sue in respect of the monies secured by debentures issued under this section shall vest in the respective holders thereof for the time being, without any preference by reason of some of such debentures being prior in date to others.

CHAPTER VIII.

PENALTIES.

73. Any Commissioner, or servant of the Commissioners, who shall acquire, directly or indirectly, any share or interest in any contract or employment with, by, or on behalf of the Commissioners, shall be deemed to have committed an offence made punishable by section one hundred and sixty-eight of the Indian Penal Code:

Provided that nothing in this section shall apply to a person—

(a) having a share in any joint-stock company which shall contract with, or be employed by, or on behalf of the Commissioners, or

(b) having a share or interest in any newspaper in which any advertisement relating to the affairs of the Commissioners may be inserted, or

(c) interested in any loan of money to the Commissioners.

74. Whoever infringes any order issued under sections twenty-two, twenty-three or twenty-four, or any condition prescribed under sections twenty-six or thirty-one shall be punished with fine which may extend to one hundred rupees; and if the infringement be continuing, with a further fine which may extend to one hundred rupees for every day such order is infringed.

75. Whoever infringes any rule framed by the Commissioners under section seventeen shall be liable to a fine which may extend to fifty rupees; and if the infringement be continuing, to a further fine which may extend to ten rupees for every day after notice of such infringement has been given by the Commissioners.

76. Whenever any person is sentenced to a fine under this Act, the convicting Court may direct that, in default of payment of the fine, such person shall suffer simple imprisonment for a term which shall not exceed the following scale:—

(a) two months in the case of continuing infringement of section thirty;

- (b) one month in the case of continuing infringement of sections twenty-two, twenty-three and twenty-four;
- (c) fourteen days if the fine does not exceed fifty rupees;
- (d) one month if the fine does not exceed one hundred rupees;
- (e) two months if the fine exceeds one hundred rupees.

77. Prosecutions under this Act may be instituted by the Commissioners or any person authorized by them in this behalf and not otherwise.

CHAPTER IX.

MISCELLANEOUS.

78. All acts done and proceedings taken by the Port Officer before this Act comes into force, and all orders, rules and regulations relating to the port and to wharves, quays, stages, jetties, piers, landing-places, tolls, charges, rates and dues within the port made and issued before this Act comes into force, shall, whenever such acts, proceedings, orders, rules or regulations would have been lawful if this Act had been in force, be deemed to have been respectively done, taken, made and issued under the provisions of this Act.

79. All fees and sums due on account of property for the time being vested in the Commissioners, and all arrears of tolls, charges, rates and dues imposed under this Act, may be recovered as if they were arrears of land revenue, in addition to the other modes hereinbefore provided.

FIRST SCHEDULE.

(Referred to in Section 13.)

1. All the land belonging to Government, bounded on the east by the Nimtolly creek; on the south by the Kurnofuli river; on the west by the Monohurkhali creek; and on the north by a line drawn from Nimtolly creek to Monohurkhali creek; east and west immediately to the south of the premises owned by B. R. Texeira, known at the time of the passing of this Act as the Sailors' Home, and meeting the public road at its southern extremity.

2. The land held by Government on a perpetual lease from the said B. R. Texeira, at the time of the passing of this Act in the occupation of the Customs Department, bounded on the east by the public road referred to in the last preceding clause; on the south by the land belonging to Government, the boundaries of which are set forth in the last preceding clause; on the west by the Monohurkhali creek; and on the north by the public road which joins the public road hereinbefore referred to.

3. The land held by Government on a perpetual lease from Bahirulla, bounded on the east by the Monohurkhali creek; on the south by the land, at the time of the passing of this Act, occupied by the Government salt golahs; on the west by a public road leading to the Sudder ghât jetty; and on the north by private property.

4. The Sudder ghât jetty and the approaches leading thereto.

5. The waste land belonging to Governments at the time of passing this Act occupied by the Customs Department, bounded on the east by the Sudder ghât jetty; on the south by the Kurnofuli river; on the west by a tank, at the

time of the passing of this Act in the possession of Messieurs Bulloch Brothers; and on the north by a road running east and west, lying to the south of the Customs House.

6. Offg. Asst. Secy. to the Govt. of Bengal,

Legislative Dept.

The following Act, passed by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, received the assent of His Honour the Lieutenant-Governor on the 26th March, 1887, and having received the assent of His Excellency the Governor-General on the 11th May, 1887, is hereby published for general information:—

ACT No. V OF 1887.

An Act for the Regulation of the Rural Police in the Chota Nagpore Division.

PART I.

PRELIMINARY.

WHEREAS it is expedient to make provision for the appointment, dismissal, maintenance, and duties of village policemen and road patrols in the Chota Nagpore Division; It is enacted as follows:—

1. This Act may be called "The Chota Nagpore Rural Police Act, 1887;"

It extends to the districts of Hazaribagh and Lohardugga, and shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

The Lieutenant-Governor may, by a notification published in the *Calcutta Gazette*, extend this Act, or any part thereof, to any other district in the Chota Nagpore Division, or to any specified part of such district from a date to be mentioned in such notification, and may, by a like notification, withdraw any district or any specified part of a district from the operation of this Act, or any part thereof, from a date to be mentioned in such notification.

2. In this Act, unless there be something repugnant in the subject or context—

"Circle" means a group of villages allotted to one circle tehsildar for the collection of assessments under Part II of this Act.

"Circle tehsildar" means the person entrusted with the collection of the assessments for the payment of village policemen under this Act.

"Deputy Commissioner" includes the Deputy Commissioner of the district and any officer appointed by the Lieutenant-Governor to perform the functions of a Deputy Commissioner under this Act.

"Road patrol" includes ghatwals, digwars, and all other persons, by whatever name they may be called, who are engaged in the performance of the duties assigned by this Act to road patrols.

"Under-tenure" includes also jaghir, khur-o-posh, mukarrari, and thika.

"Village" includes a group of villages.

"Village policeman" includes chaukidars, gorats, and kotwars.

"Zemindar" means the person whose name is registered in the general register of lands paying revenue directly to Government as the proprietor

of an estate so paying revenue, or the person whose name is registered in the general register of revenue-free lands as proprietor of a revenue-free tenure.

PART II.

VILLAGE POLICE.

3. The Deputy Commissioner shall determine the number of circles into which his district shall be divided for the purposes of this Act, and the respective limits of such circles and the number of village policemen to be appointed for each village within each circle, and shall appoint a circle tehsildar for each circle: Provided that there shall be at least two village policemen appointed for every village in which there are one hundred and fifty houses, and one additional village policeman for every complete number of one hundred houses beyond such number of one hundred and fifty.

4. Where there are fewer than seventy-five houses in a village, and some house in such village is situated within one mile of some house in another village, the Deputy Commissioner may join such villages together, and appoint one village policeman for two or more villages:

Provided that where two or more villages are joined together, one village policeman shall not have charge of more than one hundred and twenty-five houses.

5. The Deputy Commissioner shall from time to time determine the monthly salaries of the village policemen:

Provided that such salaries shall not be less than two nor more than four rupees per mensem for each village policeman:

Provided also that in determining such salaries the Deputy Commissioner shall take into consideration the value of the chakran lands (if any) held by a village policeman.

6. Wherever any zemindar or under-tenureholder holds subject to the condition, expressed or implied, of maintaining the village police within his zemindari or under-tenure, he shall be liable to pay the amount determined by the Deputy Commissioner under the last preceding section.

7. In cases other than those referred to in the last preceding section, the amount required for the salaries of the village policemen, together with a sum, not exceeding three and a half annas in the rupee of such amount, to provide for payment of the expenses of collection and losses from the non-realisation of sums from defaulters, shall be assessed on each village;

and all owners or occupiers of houses in any village, and every zemindar or under-tenureholder who has a bhandar or cutcherry for the collection of rent within the village, shall be liable to assessment for the purposes of this Act.

8. The amount payable by each village shall be fixed by the Deputy Commissioner, and thereupon the tehsildar of the circle to which each such village belongs shall prepare a list showing the amount payable monthly by each person liable to assessment in such village.

Such list, when sanctioned by the Deputy Commissioner, shall be published at some conspicuous place within the village, and shall remain in force until altered by the Deputy Commissioner:

Provided that if two-thirds of the adult male inhabitants of any village apply to the Deputy Commissioner to appoint a panchayet in the place of the circle tehsildar he shall appoint a panchayet, consisting of not less than three nor more than five persons, and such panchayet shall, as far as such village is concerned, perform the duties of a circle tehsildar under this Act.

9. The amount at which each person is assessed under the last preceding section shall be fixed according to the circumstances and the property to be protected of such person:

Provided that the amount to be assessed on any one person shall not exceed one rupee per mensem in the case of a zemindar, under-tenureholder or trader, nor eight annas per mensem in the case of an ordinary ryot:

Provided also that all persons who, in the opinion of the Deputy Commissioner, are too poor to pay half an anna per mensem, shall be exempted from assessment.

10. The Deputy Commissioner may from time to time alter the amount assessed on any village.

Notice of such alteration shall be given to the tehsildar of the circle to which such village belongs before the month of *Magh* in the year preceding the year in which the alteration is to take effect.

When any such alteration is made, the circle tehsildar shall prepare and submit revised lists of the sums payable by each person.

11. Any person dissatisfied with the amount at which he has been assessed may apply to the Deputy Commissioner, either orally or in writing, for a revision of the assessment, and the Deputy Commissioner may confirm, amend or remit the assessment.

12. Every sum due under section six of this Act, and every assessment under section seven of this Act, shall be paid by equal quarterly instalments, and the instalments on account of each quarter shall be due on the first day of such quarter; the quarter being reckoned according to the year in current use in the district.

13. The circle tehsildar shall collect from each village in his circle, within the first month of each quarter, the amount payable by each of the persons assessed in such village, and shall grant printed receipts for the same, and shall pay the amount so collected to the District Superintendent of Police, who shall place the sum so received by him to the credit of the Chaukidari Fund in the district treasury.

14. The District Superintendent of Police shall remit, before the fifteenth of each month, to the Sub-Inspector of Police of each thana, the pay due to all village policemen appointed under this Act in villages situated within the local area of such thana on account of the month next preceding, and it shall be the

duty of such Sub-Inspector of Police to hand over to each village policeman at the thana the pay due to him on account of the next preceding month, and to take a receipt for the same.

15. Whenever any person assessed under this Act fails to pay the amount due by him for any quarter before the end of the first month of such quarter, the circle tehsildar shall apply to the Deputy Commissioner for the attachment and sale of any moveable property belonging to such person.

16. The Deputy Commissioner shall thereupon issue a writing in the form in Schedule A hereto annexed, signed by him, authorising the circle tehsildar, or such other person as may be therein named, to levy, by the distraint and sale of a sufficient portion of the moveable property of such defaulters, other than plough-cattle and tools and implements of trade or agriculture, the amount of their respective arrears, together with sums equal to a proportionate share of the cost of the distraint and sale.

17. The person so authorized shall seize and keep in his own custody such portion of the moveable property of such defaulters as he shall deem sufficient, and shall make an inventory of all moveable property so seized, and shall at the same time give notice by beat of drum of the time and place where it shall be sold.

The time of sale shall not be less than five nor more than ten days from the time of the proclamation thereof.

18. If any defaulter does not, within the time specified in such notice, pay the amount payable by him, with his share of the costs, the moveable property distrained, or such portion of it as may be necessary, shall be sold by public outcry at the time and place specified, and the proceeds shall be applied in discharge of the amount so payable, and the costs and the surplus, if any, shall be returned to the owner of the distrained property.

19. Whenever any person whose name has been included in any list of defaulters disputes his liability to pay the amount mentioned in such list, or any portion thereof, he may apply to the Deputy Commissioner either orally or in writing, stating the grounds of his objection, and the Deputy Commissioner shall examine his objection and pass such order thereon as to him shall seem proper.

20. No arrears of any assessment payable under this Act shall be levied by distress after the expiration of one year from the day on which the same shall have become due.

21. No distress levied under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any defect or want of form in any list, assessment notice, summons, power, writing, inventory, or other proceeding relating thereto, nor shall such party be deemed a trespasser from the commencement on account of any irregularity afterwards committed by him;

but all persons aggrieved by such irregularities may recover full satisfaction for any special damage sustained by them in any court of competent jurisdiction, subject to the provisions of section thirty-four of this Act.

Duties of village policeman.

22. Every village policeman appointed under this Act shall perform the following duties:—

- 1st—He shall give immediate information to the officer in charge of the police-station, within the limits of which the village of which he is village policeman is situated, of every unnatural, suspicious, or sudden death which may occur, and of every offence specified in Schedule B hereto annexed which may be committed within such village, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray.
- 2nd—He shall arrest all proclaimed offenders and all persons whom he may find in the act of committing any offence specified in Schedule B hereto annexed.
- 3rd—He shall observe, and from time to time report to the officer in charge of the police-station within the limits of which such village may be situated, the movements of all bad characters in such village.
- 4th—He shall report to the officer in charge of such police-station the arrival of suspicious characters in the neighbourhood.
- 5th—He shall present himself at such police-station twice in each week if it be within two miles of such village, and if it be more remote, once in each week or once in each fortnight, as the Deputy Commissioner may direct.
- 6th—He shall supply any local information which the Deputy Commissioner or any officer of police may require.
- 7th—He shall obey the orders of the Deputy Commissioner in regard to keeping watch in the village and other matters connected with his duties as village policeman.

23. Whenever a village policeman arrests any person, he shall forthwith take the person so arrested to the police-station within the limits of which the village of which he is village policeman is situated:

Provided that if the arrest is made at night, such person shall be so taken as soon as convenient on the following morning.

PART III.

ROAD PATROLS.

24. As soon as may be after the commencement of this Act, the Deputy Commissioner shall prepare a list showing what zemindars or under-tenure-holders within his district hold their tenures

List of zemindars and under-tenure-holders liable for maintenance of road patrols to be prepared.

subject to a condition, expressed or implied, of protecting lines of roads or passes; and shall fix the number of road patrols to be kept up for such roads or passes, and the salary to be paid monthly to each road patrol:

Provided that such salary shall in no case be less than five nor more than five rupees per mensem.

25. A copy of the entry in such list affecting him shall be given to each such zemindar or under-tenure-holder.

If any zemindar or under-tenure-holder is dissatisfied with such entry, he may appeal, within thirty days of the receipt of the copy of the entry, to the Commissioner, who shall pass such order as to him seems proper.

26. When any land is held under any zemindar or under-tenure-holder by any road patrol in lieu of, or in addition to, his salary for the protection of any road or pass, the zemindar or under-tenure-holder who is responsible for the protection of such road or pass, shall, if assessed under section twenty-four of this Act, be entitled to receive rent for such land at the same rate as is paid for similar ryotwari land in the vicinity.

An order under the hand of the Deputy Commissioner in the form in Schedule C hereto annexed shall be furnished to such zemindar or under-tenure-holder.

27. All zemindars and under-tenure-holders specified in the list mentioned in section twenty-four of this Act shall pay the amount entered therein against their names to the District Superintendent of Police monthly, who shall pay the same to the road patrols to whom it may be due.

28. If the amount due from any zemindar or under-tenure-holder for any month is unpaid after the fifteenth day of the next succeeding month, the Deputy Commissioner shall issue a notice calling on the defaulting zemindar or under-tenure-holder to pay the same, together with the costs of serving the notice, within fifteen days from the service of the notice.

29. If the amount specified in the notice is not paid within fifteen days, the Deputy Commissioner may attach the holding of such zemindar or under-tenure-holder, and retain possession of the same until such amount has been recovered out of the income derivable therefrom.

30. Every road patrol appointed under this Act shall perform the following duties:—

- 1st—He shall patrol the roads within his beat under instructions from the District Superintendent of Police, and shall protect all travellers passing along his beat.
- 2nd—He shall arrest all proclaimed offenders, and all persons whom he may find in the act of committing any offence specified in Schedule B hereto annexed, and shall forthwith take the person so arrested to the police-station within the limits of which he acts as road patrol.

Duties of road patrols.

3rd—He shall report to the officer in charge of the police-station within the jurisdiction of which his beat is situated the movements of all bad or suspicious characters along his beat, as well as all unusual circumstances that come to his notice.

4th—He shall supply any local information which the Deputy Commissioner or any officer of police may require.

PART IV.

MISCELLANEOUS.

31. Subject to the approval of the Deputy Commissioner, the District Superintendent of Police may appoint, and for any misconduct or neglect of duty may dismiss, any village policeman or road patrol.

32. Every village policeman or road patrol who shall withdraw himself from the duties of his office without the express permission of the District Superintendent of Police, or of some other officer duly authorized to grant such permission;

and every village policeman or road patrol who shall resign his office without the permission of the said District Superintendent, unless he has given to his superior officer, at least two months previously, a written notice of his intention to resign; and every village policeman or road patrol who shall be guilty of cowardice or who shall offer any unwarrantable personal violence to any person in his custody shall be liable, on conviction before a Magistrate, to a fine not exceeding three months' pay or to imprisonment, either simple or rigorous, for a period not exceeding three months, or both.

33. Every village policeman or road patrol who is guilty of any wilful misconduct in his office or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code, and not being of so grave a character as, in the opinion of the District Superintendent of Police, to require his dismissal from his office, shall be liable, under the order of the District Superintendent, to a fine not exceeding one month's salary.

34. Every suit brought against the Deputy Commissioner, or any of his officers, or against any person acting under his direction, for anything done or purporting to be done by them under this Act, shall be commenced within four months next after the accrual of the cause of action, and not afterwards.

35. The Lieutenant-Governor may, if he thinks fit, appoint any officer to perform the functions of a Deputy Commissioner under this Act.

36. Every notice under this Act shall be served either personally on the person to whom the notice is directed, or by affixing a true copy thereof on some conspicuous part of his dwelling-house or principal cutcherry within the district.

37. Nothing contained in this Act shall diminish or in any way affect any liability, duty, or obligation of any zemindar or other landholder, under any law for the

time being in force, to report crimes or offences occurring within his estate or tenure.

38. Act VIII (B.C.) of 1878 (*The Hazari-bagh and Lohardugga Rural Police Act*) is hereby repealed, and section 21 of Bengal Regulation XX of 1817 is hereby repealed so far as it affects any place to which this Act applies.

TRANSFER OF THE BERHAMPORE COLLEGE AND THE COLLEGIATE SCHOOL TO LOCAL MANAGEMENT.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 11th May 1887.

RESOLUTION.

READ the following papers on the subject of the proposed transfer of the Berhampore College to local management :—

Government Resolution, dated the 18th June 1886.

Letter from the Commissioner of the Presidency Division, No. 5ME, dated the 29th December 1886, and its enclosures.

Letter from the Director of Public Instruction, No. 1213, dated 12th February 1887, and its enclosures.

In the Resolution, dated 18th June 1886, a summary was given of the recommendations made by the Education Committee and approved by the Government of India, on the subject of the gradual withdrawal of the State from the immediate management of Colleges; and it was stated that, in pursuance of the policy thus deliberately adopted, it would be necessary, in the Lieutenant-Governor's opinion, to make some arrangement before the 1st of May 1887 for the transfer to private managers of the Midnapore and Berhampore Colleges. Sir Rivers Thompson at the same time expressed his confident anticipation that the public spirit and interest in high education, for which the two districts immediately affected are remarkable, would not be wanting to maintain the two Colleges, with such support as this Government would give under the ordinary grant-in aid rules. The results have justified this anticipation. Sanction was given in November last to the transfer of the Midnapore College to the management of the local municipality with a grant from Government. In the case of the Berhampore College, the London

Missionary Society represented that they were prepared to take over the management, after transfer of the more costly portion of the teaching staff, on condition of receiving from Government a grant-in-aid of Rs. 300 a month, together with a special grant of Rs. 100 a month, so long as the remainder of the Government staff should not be transferred. Another offer has been received from Maharani Sarnamayi, c.i., of Cossimbazar, in the Moorshedabad district, who promises to contribute Rs. 1,000 per mensem for five years towards the cost of the Berhampore College, thus relieving the State altogether from the burden of its support, on condition that the management of the College is made over to a Board of Trustees whom she has nominated. This munificent proposal the Lieutenant-Governor has decided to accept in preference to the offer made by the London Mission Society. The Lieutenant-Governor has been led to this decision by regard to the unanimous opinion of the Education Commission that Government colleges should be transferred for management rather to native bodies than to missionary societies, and also with regard to the fact that Maharani Sarnamayi's contribution will give the greater relief to public funds.

2. In accordance with the proposals made by Maharani Sarnamayi, the Berhampore College, and the school attached to it, will have in future an establishment costing Rs. 1,199 rising to Rs. 1,399 a month. The control of the College, administrative and financial, will vest in a Board consisting of seven Trustees, the District Judge and the District Magistrate for the time being, Babu Boikanta Nath Sen, B.L., Babu Srinath Pal, B.L., Babu Shama Dass Roy, Dr. Ram Dass Sen, zemindar, and Babu Gopal Chunder Mookerjee, M.A., B.L., Pleader of the Judge's Court, Moorshedabad. The following members of the existing staff of the College and School will be transferred to other posts in Government service, viz., the Principal, the Assistant Professor of Sanskrit, the Lecturer in Physics, the Head-master of the Collegiate School, the Second Master of the Collegiate School. Future appointments will be made by the Board of Trustees, but the Director of Public Instruction will be always ready to give the assistance of his advice should it be required for the purpose of securing a suitable selection. The Lieutenant-Governor desires to see the inter-school rules made for the common benefit of educational institutions observed in the Berhampore Collegiate School. The Lieutenant-Governor sanctions the transfer of the following funds to the management of the Board of Trustees:—

The *Hostel Fund*—Consisting of Rs. 14,000 invested in Government 4 per cent. paper, and yielding an annual income of Rs. 560.

The *Building Fund*—Consisting of Rs. 14,000 invested in 4 per cent. Government paper, yielding an annual income of Rs. 560.

The *Rajib Lochan Scholarship Fund*—Consisting of Rs. 15,000 invested in 4 per cent. Government securities, yielding an annual income of Rs. 600.

3. It is stipulated that the first-named fund shall be devoted to the maintenance of the hostel attached to the Collegiate School. The Building Fund may be devoted as proposed by Maharani Sarnamayi to the creation of scholarships. The Rajib Lochan Scholarship Fund will continue to be applied to its present uses.

4. On the terms and conditions which have been above stated, the Berhampore College and School may at once be transferred to the Board of Trustees.

5. Finally, the Lieutenant-Governor tenders his cordial thanks to Maharani Sarnamayi for her munificent endowment, which is one of a long succession of splendid gifts which she has made for the benefit of the public.

ORDER—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Director of Public Instruction for information, and to the Commissioner of the Presidency Division for information and communication to Maharani Sarnamayi.

Ordered also that a copy be forwarded to the Government of India in the Home Department for information, with reference to the correspondence ending with Mr. MacDonnell's letter No. 206, dated 9th July 1886.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

RESOLUTION.

READ—

- An endorsement from the Director of Public Instruction, No. 3196, dated 6th May 1887, and its annexures, regarding a scholarship founded by Baboo Beni Madhu Ghose of Belghoria, in the district of the 24-Pergunnahs.

Baboo Beni Madhu Ghose of Belghoria, in the 24-Pergunnahs district, has forwarded to the Inspector of Schools, Presidency Circle, through the Committee of the Belghoria Aided Middle Vernacular School, Government promissory notes for Rs. 600, in order to provide for the annual award from the interest thereof, of a scholarship of the value of Rs. 2 a month tenable for one year. Baboo Beni Madhu Ghose desires that the scholarship should be called "Beni Madhu's scholarship," and that it should be awarded to the first successful candidate sent up for the Middle English or Middle Vernacular Scholarship Examination from the Belghoria Middle School, who may not obtain a Government scholarship. Should no pupil from the Belghoria school successfully pass the final examination in any year, the scholarship is to be kept in reserve for award to a successful candidate of the year following, and should the status of the Belghoria school be at any time changed, the scholarship is to be awarded to successful students from the school on the terms set forth above, notwithstanding the change in the status of the school.

The Lieutenant-Governor is pleased to accept the donation made by Baboo Beni Madhu Ghose, and tenders his thanks to him for his liberality. The Inspector of Schools, Presidency Circle, will be the administrator of the fund.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Director of Public Instruction for information and communication to Baboo Beni Madhu Ghose of Belghoria.

By order of the Lieutenant-Governor of Bengal,

Endorsement from the Commissioner of the Presidency Division, No. 74MG, dated 14th March 1887, and its annexure.

Letter from the Director of Public Instruction, No. 3232, dated 9th May 1887.

In commemoration of the Jubilee year of the reign of Her Majesty the Queen, Empress of India, Raja Promotho Bhusan Deb Roy of Naldanga, in the Jessore district, has made over to the Magistrate of Jessore stock-notes of the value of Rs. 625, in order that, from the annual interest thereof, a gold medal, of the value of Rs. 25, may be awarded to the girl who does best among all the girls of the girls' schools in the district at the annual examination. The Director of Public Instruction recommends that this medal should be awarded to the girl who stands highest in the list of passed candidates in the Jessore district at the middle scholarship examination, or, in the event of no such candidate passing in any year, to the girl who stands highest at the upper primary scholarship examination in the district of Jessore.

2. Sir Stuart Bayley accepts with pleasure the donation made by Raja Promotho Bhusan Deb Roy, and tenders his thanks to him for his liberality. The medal will be called the "Jubilee Medal," and will be awarded in the manner proposed by the Director of Public Instruction. The Magistrate of Jessore will be the administrator of the Fund.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Commissioner of the Presidency Division for information and communication to the donor.

Ordered also that a copy of the Resolution be forwarded to the Director of Public Instruction for information.

RESOLUTION.

READ—

A letter No. 16-2RA, dated the 24th February 1887, from the Sanitary Commissioner for Bengal, submitting the Report of the Health Officer of the Port of Calcutta for the year 1886.

Dr. Lynch was the Health Officer of the Port of Calcutta for nearly six months of the year. During his absence, on leave, Dr. Vincent Richards was in charge. The report is submitted by Dr. Lynch through the Sanitary Commissioner.

2. The report shows that 1,516 vessels were inspected during the year against 1,406 in 1885 and 1,197 in 1884. The increase was entirely in the number of outward-bound vessels, and was due to the new system of granting bills-of-health. There was an actual decrease in the number of inward-bound vessels inspected, the number being 712 against 780 in the preceding year. This decrease was in the number of coasting vessels inspected, it not being necessary to inspect these at each return visit.

3. The average number of European seamen in the port was 2,326 against 1,693 in the previous year, the total number of arrivals being 23,696 against 21,449. The increase in the average number was mainly caused by vessels staying longer in port owing to low freight; the average number in port being 100, whereas in 1885 it was 75.

As regards the health of European seamen in the port, the year under review compares unfavourably with the preceding year, though it is very much better than the year 1884. If deaths out of hospital are included, the death-rate of the three years is as follows :—

				Cholera.	Other causes.	Total.
1884	21.96	41.57	63.53
1885	4.72	25.99	30.71
1886	11.61	33.53	45.14

It is necessary to include deaths outside hospitals, as conclusions derived from hospital statistics alone are liable to be affected in a number of ways. If the number of beds available remains the same while the population increases, it is obvious that the number of deaths in hospital will bear a smaller and smaller ratio to the total population; also as cases of a more trifling character are excluded from hospital, while those admitted stay a longer average time there, there is a decrease in the number of admissions. A sudden increase in the number of beds would affect the returns in an opposite direction.

4. There was a considerable increase in the number of fatal cases of cholera, 27 deaths having occurred against 8 in the previous year. It is to be observed, however, that 1885 was an especially favourable year in regard to cholera. The rate of mortality in 1886 was much lower than in any of the four years preceding 1885. Enteric fever shows an increase from 4 admissions to hospital with one death in 1885 to 12 admissions with 4 deaths in 1886. The Lieutenant-Governor would have liked to see some notice of these cases, and some attempt to explain the increase, in the Report. On the other hand, it is satisfactory to observe that there were no deaths from either scurvy or small pox. There was regrettable increase in the number of deaths from sunstroke on board ship from 1 to 5, which seems to point to a relaxation in the endeavours, which were favourably noticed in the last Resolution, to prevent unnecessary exposure of sailors while at their work. The Port Commissioners will be asked to call the attention of masters of vessels to the notice published by them on this subject on 22nd August 1884.

At sea there were 41 deaths amongst European seamen against 46 in the previous year.

5. Last year it was remarked that there had been no increase of venereal disease among the European seamen, notwithstanding the withdrawal of the Contagious Diseases Act from Calcutta. This year, however, there has been

a very great increase.' The following are the figures for the present and the three preceding years:—

Year.	Total number of admissions into hospital.
1883	237
1884	184
1885	170
1886	417

6. Out of four steamers which arrived during the year with pilgrims from Mecca, one had small-pox on board, of which no intimation was given by the master. Another steamer arrived from England with cases of small-pox on board, but in this instance due notice was given by the master. Seven cases of scurvy were found in five vessels. Two of these vessels were from Liverpool, one from Mauritius, and two from New York. In the case of one of the ships arriving from New York, it was ascertained that the crew were supplied with an inferior kind of biscuit, and that their food was cooked badly. The lime-juice supplied to them was, moreover, seriously deficient in strength. The Sanitary Commissioner calls special attention to the decision of the Shipping Master, that the case of this vessel does not come under the provisions of the Merchant Shipping Act of 1857 respecting medicines, medical stores, and anti-scorbutics. He will be asked to report separately on this point. Several cases of scurvy were also found among the lascars on board a vessel arriving from Muscat. The lime-juice on board was analysed and found good. No vegetables were, however, supplied to the crew. The reason given was that vegetables are found with the greatest difficulty in Muscat. This explanation is not sufficient. If vegetables are not procurable at Muscat, a double supply should have been taken from India on the outward voyage.

7. The sanitary condition of the river has not been wholly satisfactory. Dead bodies continue to float down the river in large numbers; 70 human bodies and 4,853 carcasses of animals were found floating, and dealt with by the Water-police, as against 50 and 4,136 in 1885, and 86 and 3,975 in 1884. It is probable, as observed by Dr. Lidderdale, that this evil might be mitigated by the exercise of greater vigilance at the burning ghâts in the thickly populated riparian tracts above Calcutta. The attention of the Commissioners of the Presidency and Burdwan Divisions will be drawn to the matter. Besides this source of pollution, sewage still finds its way into the river in various ways pointed out by the Sanitary Commissioner. From Fort William part of the sewage flows into the river, and the attention of the Government of India has been called to this. The drainage, including the contents of the sewers of a large bazar of the town of Howrah, is discharged into the river. The Sanitary Commissioner is doing his utmost to remedy this, and a copy of his remarks will be sent to the Municipality. Complaint is still made of the defective state of the conservancy of Tolly's Nullah and of the khal running through the King of Oudh's premises. The Sanitary Commissioner will be separately asked to report whether any improvement has been effected by the action taken by the Magistrate of the 24-Pergunnahs and Chairman of the Municipality in August last under the Penal Code and the municipal bye-laws. Flushing inlet to No. 3 main drain at the jetties has had its gradient altered, and it is hoped that this will remedy the evils complained of. The condition of flushing inlet to No. 4 main drain has engaged the attention of the Municipal Commissioners. The Sanitary Commissioner will be asked to report how far the action taken proves successful in mitigating the nuisance on the riverbank. The latrines are reported to be defective in construction and not large enough for the numbers frequenting them, and sewage escapes from them into the river. A copy of the remarks on the latrine in the Port Commissioners' dock at Howrah will be sent to the Port Commissioners for consideration.

8. In his report for 1885 the Health Officer remarked that the present plan of conveying water to the shipping by means of iron tanks placed in country boats was open to objection, as the lids of the tanks were not always kept closed, and there was danger that the men in charge, who spent most of their time on the top of the tanks, would convey impurities to the water. He therefore recommended the construction of suitable water-tank boats, in compartments, with the water inaccessible except through the pump,

and with proper facilities for cleaning. The attention of the Calcutta Municipality was drawn to the matter, but it appears that on financial grounds that body was not able to take action in the matter. The Health Officer now suggests that an addition of one anna per 1,000 gallons to the charge for filtered water would not be felt as a grievance, and would quickly repay the outlay. Dr. Lidderdale suggests that the Port Commissioners should purchase the water from the Corporation and undertake its distribution. A copy of their remarks will be sent to the Corporation and to the Port Commissioners for consideration.

9. The Health Officer has represented the difficulty and inconvenience which he experienced in carrying on his duties during the early part of the year in consequence of the detention of his steam-launch in the dockyard for repairs. He suggests that if he were permitted to make contracts in the open market, he would be able to superintend the carrying out of his own estimates, and economy and efficiency would be secured. This question is being separately considered.

10. The Lieutenant-Governor endorses the commendation bestowed upon Dr. Lynch and Dr. Richards by the Sanitary Commissioner for the care and efficiency with which they carried on their duties during the year. His Honour also notices with pleasure that the native Sanitary Inspector is reported to have given satisfaction.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

**RESOLUTION ON THE ANNUAL REPORT ON THE WORKING OF
ACT I OF 1882, THE INLAND EMIGRATION ACT, IN THE
DISTRICT OF CHITTAGONG DURING THE YEAR 1886.**

GENERAL DEPARTMENT—INLAND EMIGRATION.

Calcutta, the 25th May 1887.

RESOLUTION.

READ—

Memorandum No. 293GM, dated 5th April 1887, from the Commissioner of Chittagong, and enclosed reports from the Magistrate of Chittagong and the Deputy Commissioner of the Chittagong Hill Tracts, on the working of the Inland Emigration Act I of 1882 during the year 1886.

The figures given in the Magistrate's report are complete only as regards labourers who have executed contracts under Act I of 1882. These are employed on nine tea-gardens, all in the district of Chittagong, and their numbers during the last two years are compared in the following statement:—

				Labourers under the Act.	
				1885.	1886.
Total at beginning of the year	915	723
Deduct during the year	335	205
Balance	580	518
Add during the year	143	199
Total at end of the year	723	717

2. Of the labourers added during the year, only 50 were imported from outside, while 121 persons executed local contracts under sections 111 and 112 of the Act. Of those deducted the contracts of 130 expired during the year, 22 died, 22 deserted, and the rest are otherwise accounted for. The deaths, which were chiefly caused by fever and bowel-complaints, were at the rate of 30 in the thousand. The exceptional mortality noticed in last year's report in regard to the Fatikcherra Estate, and which was attributed to defects in the water-supply, has disappeared, apparently in consequence of the sinking of a well from which excellent water is pumped into a cistern. Six of the nine gardens employing labourers under the Act were inspected during the year, and five gardens not employing Act labourers were also visited. Of the three gardens employing Act labourers, which are not visited, one is situated in the station cantonments, and the other two employed together only 11 Act labourers. The Lieutenant-Governor must again, as in last year's Resolution, call the Magistrate's attention to the rule which requires that all gardens which come under the provisions of the Act shall be inspected at least once during the year. The average earnings of labourers, as noticed during inspections, are said to have amounted to Rs. 4-10-5 per month exclusive of sums paid for occasional job work. The Magistrate writes on this subject:—

" Out of this a coolie has to keep himself. The amount is not a large one, but there are many circumstances which are to be taken into consideration. With this rate of wage an ordinary labourer in the mohussil can maintain himself on Rs. 2 to Rs. 2-8 per month. Besides this, the coolie has no rent to pay for his land; he has nothing to spend in repairs to his house; he has a garden given him, where he can sow vegetables sufficient for the consumption of himself and his family, and each time he re-engages he is given a bonus, usually ten rupees and a blanket. Moreover, as in this report, no tikha pice are to be shown; the average rate is not shown as high as it might be. In the Sangoo Tea Estate during the plucking season the average earnings of the coolies amounted to Rs. 13."

It is also stated that, according to the general custom of the gardens, coolies are not forced to work when they are unwilling to go out, and that the general average of wages as shown above is lowered by non-working coolies. Only one labourer in the district was punished under Act I of 1882 for desertion during the year, against 15 persons convicted for desertion and unlawful

absence from labour in 1885. The coolies on the Ropley Tea Estate struck work in May 1886, and on a complaint that they were not properly paid, the Inspector made a local investigation, with the result that the complaint was pronounced to be untrue. On this estate, however, the Inspector found it necessary to intervene on behalf of the labourers in order to ensure that their wages for Sundays should be calculated in accordance with section 116 of the Act.

3. On the whole, the Act is said to work smoothly in the district. The Magistrate writes on this subject as follows:—

“The results of the inspections recorded are satisfactory as showing that the coolies are well treated by their employers, and are happy and contented with their lot. Each garden has its own hāt, and no fee is demanded by the manager from the villagers who come to sell on hāt days; there is always an abundant supply of provisions for the coolies. There is, too, on most gardens a moody’s shop where oil, salt, &c., are sold at moderate prices to the coolies. With regard to their houses, managers find it to be the best policy to allow their coolies to build houses for themselves as they like best, due regard of course being had, as much as possible, to sanitary arrangements, the prevention office, and the spread of contagious diseases. Thus a coolie line is more like the ordinary Bengali bustee than anything else, each house having its own yard, small vegetable garden and cow-house, and many have stocks of cattle and poultry and a patch of cultivation for rice free of rent. The hospital accommodation and supply of medicines is good on all estates; and when a coolie is seriously ill, beyond the capacities of the ordinary doctor Baboo, he is sent in to head-quarters for treatment at the municipal hospital.”

4. A memorial was received by the Lieutenant-Governor during the year from employers of labour in Chittagong for the extension of Act XIII of 1859 to the Chittagong district. Similar proposals had been made in 1881, and had been then rejected after full consideration; and the Lieutenant-Governor was of opinion that no sufficient grounds were shown by the memorialists for a reconsideration of the former decision. It is to be hoped that the time is not far distant when the necessity for any special law of contract in the Chittagong district will have ceased to exist.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

Evaluation. - Summary. - The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period for the past 10 years. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number in the district column is the number of stations. A rainy day is one on which at least one hundredth of an inch fell.

for the week ending Friday, the 20th May 1887.

CALCUTTA, the 24th May 1887.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 20TH OF MAY 1887.

THE meteorological conditions of the present week do not call for very detailed remark. Pressure was, on the 13th May, decidedly below the normal, and on Saturday, the 14th, the pressure changes over the Province were generally small, and it was rising slightly in most districts, but still pressure was largely below the normal, the defect in some instances being as much as 0·2", and the general distribution of pressure over the Province was similar to that which generally obtains immediately before the commencement of the rainy season. Dry westerly winds were blowing in Chutia Nagpur and at many of the stations in South Behar, south-westerly winds were blowing in Orissa and South-West Bengal, southerly and south-easterly winds in East Bengal, and strongly easterly winds in Assam and in the northern districts. Rain was falling in North Bengal in the districts near the hills, and rather heavy rain was reported from all the stations in Assam, and on the 14th Dhubri reported 3·49 inches and Sibsagar 1·49 inches. With the occurrence of westerly winds also humidity had become decidedly low at the western stations in the Province. On the 15th, pressure commenced to increase, but otherwise conditions scarcely altered; rainfall still continued in North Bengal and in Assam, while a few stations in East Bengal also received rain. This was followed, on the 16th, by a rapid rise of pressure over the greater part of the Province. On the 17th, the increase of pressure practically ceased, and for the remainder of the week there was little or no change, except on the 19th, when there was a small general increase of pressure. Weather conditions therefore remained for these five days almost similar to those at the commencement of the week, and rainfall continued in Assam almost daily throughout the week, Dhubri, on the 16th, again receiving the heavy fall of 2·56 inches. Rainfall was also general in the hill districts of North Bengal on practically every day of the week, while only a few showers were received in East Bengal and in the eastern districts of South-West Bengal. Except for a few isolated showers, the remainder of the Province has been practically rainless for the week.

It will thus be seen that the tendency of the changes during the week was to bring back to a great extent the ordinary hot weather conditions to Bengal, and the week has been characterised usually by absence of rain, except in the districts above referred to, extremely high temperature, and very low humidity at the western stations.

Though the week has thus, from a meteorological point of view, been a quiet and normal one in Bengal, certain changes have been taking place in the Bay of Bengal. Stormy winds were blowing in the south of the Bay at the close of the previous week, but they shortly died away and became almost normal in force. On the 18th instant, however, winds began to increase in force again at the southern stations, and winds became north-easterly at Diamond Island and easterly at Akyab. On the 19th, winds again strengthened in Ceylon, pressure fell at Diamond Island, where wind became south-east, and wind at Akyab became north-east. These conditions developed still further on the 20th; and on this day it became clear that a cyclonic storm was forming to the west and north-west of the Andaman Islands, and the formation of the storm was being accompanied by a large increase in the wind velocity at Diamond Island. Conditions therefore at the close of the week had become decidedly disturbed in the Bay; and in the centre and south-east of it probably at this time weather was decidedly stormy.

Pressure was at the commencement of the week, largely below the normal; but it rose almost steadily throughout the week, so that at its close it had become more nearly normal. The mean pressure for the week has thus been below the normal in all districts. The average defect is about 0·08 inch, and the defect is fairly equally distributed in all districts except Chutia Nagpur; for at those stations from which pressure averages have been obtained for the largest number of years, and excluding the newly-established stations, the extreme variations are from a defect of 0·099 inch at Calcutta to one of 0·074 inch at Bankipore and 0·071 inch at Saugor Island.

Temperature, as might be expected from the conditions above described, has been very high throughout the week, and in all districts, except Assam, where temperature has been very nearly normal it has been from about 3° to 7° above the normal. The average mean temperature for the whole of the Province of Bengal has been 4·5° above the normal, while in Chutia Nagpur it has been 7·1° above the normal. Some extremely high maximum temperatures have been recorded. The following are the highest maximum temperatures in each meteorological division of the Province, including Assam:—

DIVISION.	Date.	Station.	Temperature.
	1887.		
Orissa ...	16th May ...	Cuttack ...	113·9°
South-West Bengal ...	19th ...	Ramgunge ...	110·0°
East Bengal ...	19th ...	Burisal ...	94·3°
North Bengal ...	18th ...	Ramgore Beaulah ...	105·4°
Assam ...	18th ...	Chupra ...	106·9°
		Ma ...	110·1°
		Barugh ...	106·5°
			93·6°

Several times in the week nearly 20 stations in the province in a day have reported maximum temperatures of above 100°. Some idea will also be given of the high temperature which has obtained when it is stated that, on the 19th, four out of the six reporting stations in South Behar registered temperatures above 100° at 10 A.M., while at Dehree on this day at 10 A.M. it was 105·8°.

Humidity—Some remarkably low humidities at the western stations have been reported during the week. Thus, at 10 A.M. of the 19th, at Hazaribagh, the humidity was only 7 per cent. of the possible amount. At Hazaribagh and Ranchee, on the 18th, the saturation was only 10 per cent., and on several days at such stations as Hazaribagh, Dehree, Buxar, and Ranchee the humidity varied from 10 up to 13 per cent. These figures represent excessively dry states of the atmosphere.

Rainfall, as has already been stated, has been mainly confined to Assam, North Bengal, and to parts of East and South-West Bengal. In Assam the rainfall has apparently been heaviest, and at the three stations which send in reports, the following amounts have been received:—Dhubri 7·55 inches, Silchar 2·34 inches, and Sibsagar 2·18 inches. In North Bengal the districts in and near the hills have received very heavy rain. Thus, the Julpigoori district has received an average fall of 5·39 inches, the Darjeeling district 3·87 inches, and the Rungpore district 2·04 inches. In East Bengal, the Mymensingh district has received an average of 1·54 inches, but, with these exceptions, no other district has received an average fall of an inch of rain during the week. The following districts have received average falls of between half and one inch:—Krishnagar, Jessore, Dacca, Serajgunge, and Bampur Peauleah. Very small average falls are reported in most of the remaining districts of Orissa, South-West, East and North Bengal, but, excepting in Purneah, no rain has fallen in Behar or in Chuta Nagpur. Some very heavy falls of rain have already occurred at some of the Northern Bengal stations; and thus at Buxar in the Darjeeling Hills district, 7·11 inches of rain were received on the 18th, Dinhatta, in the Cooch Behar district, received 3·12 inches on the 16th, while several falls of between 2 and 3 inches have been reported.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 20th of May 1887:—

The average pressure of the corresponding period for 24 years, S. G.'s Office

The total number of hours of bright sunshine

The maximum possible number of hours of sunshine

The mean temperature of the seven days

The average temperature of the corresponding period for 24 years, S. G.'s Office

The extreme variation of temperature

The maximum temperature

The highest velocity of the wind in one hour

The highest pressure of wind on one square foot

The mean relative humidity

The average relative humidity of the corresponding period for 24 years, S. G.'s Office

The total fall of rain from 15th to 21st May 1887

The average fall of the corresponding period for 24 years, S. G.'s Office

The total fall from 1st January to 21st May 1887

The average fall of the corresponding period for 24 years, S. G.'s Office

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 1h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE leading features in connection with the vital statistics of the principal Municipalities in Bengal, for the week ending 7th May 1887, are the following:—

1. That births and deaths were registered in these Municipalities at the rates, respectively, of 16·2 and 23·7 per 1,000 of population as opposed to 15·8 and 24·5 per 1,000, in the preceding week ending 30th April.

2. That the highest proportions of births and deaths were furnished by the following Municipalities:—

Births.			Deaths.		
		Ratio per mille.			Ratio per mille.
Beauleah	...	39·4	Comillah	...	50·1

			Puri	...	35·7
			Suburbs of Calcutta	...	35·2
			Hughli	...	29·5
			Patna	...	29·5

3. That the casualty-rates from the principal diseases specified in the following table exhibit no noticeable differences in comparison with the death-rates from the same diseases in the preceding week:—

					Ratio per mille during the weeks ending—	
					7th May 1887.	30th April 1887.
Cholera	6·8	6·9
Small-pox	·2	·4
Fever	8·0	7·9
Bowel-complaints	2·7	2·6
Injury	·5	·3
Other causes	5·5	6·4

4. That eliminating small-pox and fever, which proved notably fatal, the former only in the Gya town, viz., at the rate of 3·4 per 1,000 of population, and the latter in the Beauleah Municipality, viz., at 34·2 per 1,000, and bowel-complaints and injury which did not exhibit any local exacerbation in fatality, cholera and the maladies returned under the head of "Other causes" manifested exceptional mortality in the following Municipalities:—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to recensus them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age." The ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be so revised as a basis of calculation on, owing to the results of the census under this head not having been recorded under the authorized form of age classification.
